CITY OF NASHUA

1929

SEVENTY-SEVENTH

ANNUAL REPORT

OF THE

MUNICIPAL GOVERNMENT

OF THE CITY OF

NASHUA, N. H.

FOR THE

FINANCIAL YEAR

1929

F. E. COLE & CO.
Nashua, N. H.
1930

Annual Message to the Board of Aldermen

by Mayor William F. Sullivan

Nashua, N. H., January 1, 1930.

Gentlemen of the Board of Aldermen:

Today marks the beginning of another administrative period. The routine work for the next two years will not be dissimilar to the past two except in the variation of its performances.

The seasoned members and the new members of an administration have new viewpoints, some seeing through the eyes of experience, others with a fresh vision and all striving for economy with efficiency. City management, like any business, changes and while governmental maintenance and development generally follow the fundamentals there are opportunities for new and better methods.

The approach in solving problems may with advantage be taken from different angles even if the problems seem common ones. Each year there are matters which the incoming government inherits from its predecessors along with new and vital matters, some weighty, others mere details. If our oath is not meaningless, and we accept our duty seriously, then we will with equal care pay attention to the small as well as the more important matters, and give to all the highest intelligence we possess. We should be truly the servants of the people we represent. Our principal duty is to see that the taxpayers' money which we appropriate is spent honestly and judiciously. In appropriating and spending money, the guiding principle should be the ability of the taxpayers to meet the obligations we incur for them.

One of the first things we should acquaint ourselves with is the financial condition of the municipal corporation of which we are managing directors.

Individually and collectively it is our duty to study the needs of the Community and then decide what are the necessary requirements for each department and find out what the true expenditures for the coming year should be. The charter provides that we are to judge whether the requests are reasonable and needful or excessive and oppressive. To arrive at a correct decision we must have first hand information of department needs. We should know the situation of local business and in

a general way the industrial and economic condition of the country and particularly of New England. True information along these lines will be a guide to us in determining capital expenditures as well as the allowances for maintenance of the different branches of municipal activity.

Necessity for the work and sufficient means on the part of those who must carry the load should be the prime requisites for each and every item placed in the appropriation budget or provided for by loans.

We can with advantage to ourselves and our constituents take a glance at the accumulated debt which has been piled up over the past years, and it would be enlightening to us if we could analyze the causes which prompted past administrations to place upon the present generation this financial responsibility.

Gross debt, January 1, 1929		$2,214,000.00
Gross debt, January 1, 1930		2,036,000.00
Decrease		$ 178,000.00
Loans issued 1929		None
High School Loan paid out of Sinking Fund	$ 46,000.00	
Serial Loans paid	132,000.00	
Total		$ 178,000.00
Sinking Fund January 1st, 1929		294,535.42
Less High School Loan		46,000.00
Balance		$ 248,535.42
Sinking Fund appropriations 1929		22,000.00
Sinking Fund earnings 1929		14,868.83
Total		$ 285,404.25
Sinking Fund January 1st, 1930		$ 285,404.25
Net debt January 1st, 1930		1,750,595.75
Gross debt		$2,036,000.00

Statement of Debt

Fire Loans	$ 118,000.00
Public Comfort Loans	9,000.00
Sewer Loans	190,000.00
Highway Loans	693,500.00
School Loans	622,500.00
Refunding Loans	345,000.00
Machine Shop and Garage Loans	39,000.00
Veterans Building Loan	19,000.00
	$2,036,000.00
Net debt January 1st, 1929	1,919,464.58
Net debt January 1st, 1930	1,750,595.75
Reduction	$ 168,868.83
Decrease in gross debt	$ 178,000.00
Decrease in net debt	$ 168,868.83
Valuation April 1st, 1929, including exempted property	$44,084,867.00
6% of valuation	$2,645,092.02
Net bonded debt	1,750,595.00
Borrowing capacity January 1st, 1930	$ 894,497.00
Borrowing capacity January 1st, 1929	733,795.18
Increase in borrowing power over last year	$ 160,701.82

This statement shows that the gross debt was reduced during the past year by $178,000.00. This was primarily brought about by refraining from issuing any bonds during the last fiscal year, and incidentally this policy has increased our borrowing capacity.

The assessed valuation for taxable purposes in 1928 was $44,220,990.00 and in 1929 it was $43,843,267.00 showing a net decrease of $377,729.00. The increased valuation of new construction and stock in trade was about $600,000, the decrease in valuation of existing industrial and other structures and loss of inventories amounted to about $900,000. This is significant of the present business trend and values. These evidences of a temporary halt in the general expansion of business are worthy of careful thought on our part.

It is the opinion of the assessors that there will be no substantial fluctuation in our taxable property in 1930, the record shows that in sixteen years municipal taxes in New Hampshire have increased from six million to about eighteen million dollars, and Nashua's tax has increased in the same period from $432,373.00 to $1,229,312.00. The outlook for the coming year is that, unless there is a strong revival of business, new construction will hardly offset inevitable tax losses.

Taxes and tax rates are determined by the demands of the people and controlled directly by the allowances for the usual activities or for new improvements. It is evident that the city, like the individual, should live within a rational income.

The appeal to departments for two years has been to curtail expenditures. An effort was made to lower the tax rate, but the shrinkage in valuations caused an increase of ten cents per hundred dollars in 1929. Utmost care must be used in spending money the coming year for unless business conditions change there may be a further shrinking of taxable values and a resultant higher tax. During the past year the interest charges for loans made in anticipation of taxes were abnormally high, in one case reaching 6.09 per cent.

CITY HALL

At the beginning of the year 1929 the Board of Aldermen had before it the exhaustive report of the City Hall Advisory Committee which had been appointed in 1928. This report, full of information and detail, called for action and was a step forward in settling a number of vexed questions pertaining to the status of the old City Hall. Another step, halting as it has proven, was taken by the appointment of a joint Committee consisting of the Advisory Committee, the Board of Aldermen and the Mayor to take up the Advisory Committee's report of 1928 as a basis, and report upon the whole situation for final action by the Board of Aldermen.

It is within the province of this general Committee to find out and recommend whether it is desirable to remodel the old City Hall or build a new City Hall upon the present site or any other suitable location. This Committee was empowered to get facts and costs on all phases of such an undertaking. Meetings were held, subcommittees on sites, and architects were appointed and much thought and work given to the proposed project.

A number of sites were offered or suggested and the Committee having given due weight and value to the information at hand and hearing the opinions expressed by the committee and by citizens, reported on December 29th, 1929, on sites as follows: That it was the opinion of a

majority of the Committee that a new City Hall should be built on a new site. The number of sites was reduced to two and then this question was referred to the next meeting of the General Committee.

The subcommittee on Architects reported its recommendation that Addon, Parker, Clinch & Crimp be engaged to design and supervise the erection of a City Hall. The General Committee accepted the report.

For more than four years the City Hall question has been before the City Government for settlement. This is not a makeshift proposition, nor is it *temporary* in its nature: It is a permanent matter of unusual length of life even for a city improvement. It should be settled and settled right, for at least a century, and this Board or some other Board will be faced with the problem until it is solved satisfactorily to you and to the public.

ZONING

A definite start on zoning the city was made last year. The Mayor appointed and the Honorable Board of Aldermen confirmed a Committee of interested and public spirited citizens of which Horace E. Osgood is Chairman, to make studies, prepare plans, and draft an ordinance which would be suitable for a city like ours.

Much work was done, studies were made of ordinances and regulations of many cities which have adopted such a plan for the protection of the homes and the stabilization of values. Six hundred leading cities of the nation have found it of great help in developing and promoting a better, a more beautiful, and more healthy city to adopt zoning regulations. I unhesitatingly recommend that a Zoning Ordinance be adopted for the City of Nashua, confident that when once in operation, it will give universal satisfaction.

STREET NAMES AND NUMBERING

Last year a recommendation was made that an ordinance be passed to rectify the street numbering system. A few satisfactory experiments have been made, and I believe the city should have and is now ready for such an ordinance.

In conjunction with this work is the elimination of duplicate street names, and during the year we have received cooperation from abuttors on several streets and names have been given to streets in which hereafter there will be no similarity.

SCHOOL DEPARTMENT

At the September enrollment of pupils and students, the High School showed 1038, 66 more than the previous year, the Junior High School showed 714, an increase of 63, while all the lower grades registered 2759 exactly the same number as of September, 1928. The aggregate gives us

a total attendance of 4511 at the opening of the school year. Since then a special demand appeared in the Belvidere section of the city for a Kindergarten to be opened at the O'Donnell School. This was caused by the adoption of a rule at the St. Francis Xavier School which required that children should be at least six years old in the June preceding the opening of the fall term. To meet this emergency the Board of Aldermen granted the Board of Education additional funds, and the Belvidere Kindergarten was reopened under favorable circumstances with an attendance of 78, thus making an increased enrollment in all schools over the previous year of 207. The increased enrollment indicates the continuous tendency towards attendance in the higher grades.

Parents and guardians realize that the boy and girl today need and require more training than formerly to compete successfully in the battle of life, and it appears also that more families can afford a longer school period for their children. This is a most hopeful sign in American life, even if it brings added costs. I do not believe anyone can or will within reason, deny either buildings, equipment or teachers to those who ask for more schooling.

If the schools of Nashua have reached an acute stage in housing facilities we should welcome a report from the Board of Education dealing with this matter in all its phases and it can, with confidence, transmit to this Honorable Board and the Mayor its recommendations for immediate and careful consideration.

Again it is my pleasure to say that the Board of Education has cooperated with the appropriating powers and has lived within the amount of money allotted to it. This year it paid out of its budget $550 for an additional lot of land for the Shattuck Street School. This property was purchased at a low figure and I voice the appreciation of the city to the grantors for the eminent fairness displayed in the transaction.

Fire escapes were placed on the Lake Street, Palm Street, Mulberry Street and the Shattuck Street schools at a cost of $3877.00. These items were not included in the budget and it must be of considerable satisfaction to the management of the schools to have been able to save so that it could use the money for such essentials.

Through the generosity of Mr. Harry A. Gregg in furnishing musical instruments and with the active support of civic clubs, a "Boys' Band" has been organized. Membership in this band is as broad as the city, for it is open to any boy in Nashua with the requisite talent for music and a willingness to give adequate time for rehearsals.

The band has been started with a membership of forty-five and a waiting list of forty. It is under the management of the Board of Education and a Board of Trustees composed of representatives of the School authorities and the service clubs. The band master is Mr. Elmer Wilson, Musical Director in our Public Schools.

BOARD OF PUBLIC WORKS

The Board of Public Works policy is to improve the principal streets as these streets carry the major traffic. When these are in shape the side-streets will receive more attention. Nashua's network of streets is such that we have a main stem reaching from the State line to the Merrimack Town line.

Whenever abuttors asked for new sidewalks on this main artery or any of the principal laterals the request is readily granted. The Board is desirous that the main thoroughfare through the city should be at all times in good condition. With this thought in mind and with the cooperation of the Nashua Street Railroad the unsatisfactory and unsafe condition of Main Street between City Hall and Hollis Street has been improved, the Street Railway relaying its tracks and the city doing the paving. This work cost the city $4700.00.

Following out the plan of further improvements on the main line, several conferences have been held with an official of the street railway company to discuss whether the tracks on Concord Street and on Main Street from Lake Street to the Country Club should be relaid, or entirely removed. We believe the right method would be the elimination of the tracks and the installation of an improved bus service running from the north end to the south end of our city which would extend the service beyond the present terminals. If this were accomplished it would improve the highway, restoring the middle of Concord Street to general vehicular uses. At the south end the same would happen and from Taylor Road and beyond that point the east side of the street could be used more generally. At the same time the street railway tracks should be relaid from Main Street Bridge to Amherst Street, and Library Hill repaved.

There are three plans for the improvement of Concord Street:

First: A temporary plan which would be to remove the tracks and fill the valley with suitable road material, surface the whole with a hard top, harmonize grades and provide additional drainage to take care of the storm water which now runs off in track basins. The estimated cost for this type of construction is $8000.00.

Second: After removal of tracks to tear up the sides which contain excellent road materials, regrade at some places, where the roadway is now above the sidewalk level, drain, roll and resurface. There is no doubt but that such a job, if properly executed, would last for years. The estimated cost for such work would be $45,000.00.

Third: To do what seems to be the custom in rich cities and towns and what is now practised in state highway construction—brush aside costs and put in the latest type of re-inforced concrete highway. This would necessitate the establishment of new grades, and the excavation of the roadway in order to put back the street to the grade originally

intended. The custom of years has been to continually add new top-dressing on the old road surfaces, thus raising the grade of roadways above the sidewalk level. There should also be a combination curb and gutter outside the grass-plots as a protection for the trees. With this done the sidewalk situation would be acute and need careful treatment. Concord Street has many beautiful shade trees that should be preserved, no matter which plan is adopted. The sidewalks are now in poor condition caused by the roots of these trees. If new sidewalks were built on both sides it does seem feasible that for the sake of the trees and to get better walks the abuttors might sacrifice about two feet of their front lawns and allow the same for the additional width of grass plots between the sidewalk and roadway in front of each of the premises.

All this would entail an estimated cost of $72,000.00.

The general improvement of the roadway gutters and drainage from Lake Street to the Country Club would cost approximately $16,000.00.

The Board of Public Works is inclined to meet any reasonable demand for sidewalks on Concord and Main Streets and the Lowell Road. In doing this it believes public necessity and convenience require it and at the present time safety demands it.

PERMANENT ROADS AND HIGHWAYS

Permanent highway work was done on Cross, Holman, Stark, Fulton and Arlington Streets, and on Cottage Avenue and Temple Place.

SIDEWALKS

During the past year there was laid 0.05 miles of cement concrete sidewalks, five feet wide. This was 2.72 miles more than the previous year.

SEWERS

Sewers were laid on Hill, Douglas, Farley, Raymond, Tetreau, King and Burke Streets and on Notre Dame and Columbus Avenues and through the Womolancet Company's land. Also there were built twenty-three additional manholes and eighty-eight catch basins.

SEWERAGE SYSTEM

The sewerage system of Nashua is merely a net work of drains built as the past and present demands required with outlets at convenient places. This system was made easy with the natural elevation of the city and the proximity to rivers and brooks. Today these sewers are often inadequate and in some cases obsolete, and are unable at times of heavy precipitation to take care of the runoff. There are large areas of our city without any means of house waste except dry wells, septic tanks and surface disposal.

This city needs an extensive survey of drainage conditions, with a long look ahead, and a comprehensive plan prepared under expert advice. This plan would aid in determining the type and size of sewers to be built or rebuilt so that in the years to come Nashua might have an up to date sewerage system instead of a mere gridiron of interlocking pipes discharging into the surrounding water courses.

MAINTENANCE

The general maintenance of roads, walks and sewers was not neglected. Snow removal and ploughing, together with sanding was taken care of in a reasonable way. Ashes and waste collection, street sweeping and cleaning was given close attention. On December 10th, 1929 we again presented our claim for aid from the State in the rebuilding of the Canal Street Bridge. We believe our position is just and fair and we ask that the Honorable Governor and Council review the facts, consider the moral and legal obligation of the State and show no partiality. We are paying for a considerable portion of the flood damages to other communities and receive no aid in return. Our claim is modest and the special session of the Legislature of 1927 provided for its payment. We believe here is an opportunity to reestablish the principle of fairness between the State and a component part.

FIRE DEPARTMENT

The Fire Department has served well and faithfully another year. The record will show efficiency and service with losses kept down to a low level. Conflagration hazards are ever present and there must be no letting down in the maintainence of the necessary equipment or in preserving the morale of the membership of the department. During the year six new fire alarm boxes were installed.

POLICE DEPARTMENT

The Police Commission, after a thorough study of traffic conditions, installed automatic traffic signals at Hollis, Pearl, Temple and Factory Streets and near the City Hall. The regulation of traffic by signals is giving excellent satisfaction and it appears that vehicular travel has been speeded up and more safety afforded pedestrians.

A special allowance of $3500 was made by the Board of Aldermen for this installation. In doing the work extra conduits and cables were necessary and the cost of the whole job was $6372.00. The excess cost of $2872.00 was provided for by economy practised in the police department during the year.

The protection afforded our citizens against crime has been well above the average and there have been no serious outbreaks against law and order.

NASHUA PUBLIC LIBRARY

The circulation of books from the library will be slightly in excess of the number distributed in 1928. It is the impression that the circulation has about reached its peak.

Methods could be adopted in an endeavor to stimulate more reading among the public. How effective these would be, or of what value is only guesswork.

The library should hold firmly to the work in hand and do everything necessary to maintain its present standard.

During the past year improvements have been made in the reading rooms, the trustee's room and other parts of the structure.

Some of the requirements of the immediate future are additional stacks, the repainting of the stack room, new lighting fixtures and improvements to the heating system, along with changes needed at the Crown Hill Branch.

BOARD OF HEALTH

Nashua during the year has been fortunate in its general health conditions. The Board of Health introduced a Milk Ordinance early in the year providing that "All milk sold in Nashua shall be one grade known as Pasteurized Milk." This failed of passage by the Board of Aldermen but was referred to the voters at the December election. This Ordinance was defeated by a large majority of those voting on the question.

CEMETERIES

The trustees of the various cemeteries have performed their duties faithfully and have accomplished many betterments with the funds available. These Boards should be commended for the excellent appearance and general upkeep of the burial places.

EDGEWOOD CEMETERY

The outstanding event of this cemetery not only for last year but for many years was the dedication of the "Frank E. Anderson Memorial Chapel" the gift of Mrs. Ella F. Anderson. This chapel, beautiful in design and of great permanence of construction, located on an eminence among graceful surroundings, adds greatly to the attractiveness of the whole cemetery. Mrs. Anderson also contributed an artistic granite fountain which was placed near the private mausoleum of the late Frank E. Anderson.

WOODLAWN CEMETERY

Last year's Board of Aldermen appropriated money for a new iron fence on the West Hollis Street side of the cemetery. This was to replace a dilapidated wooden enclosure and it has improved the general appearance of this cemetery and the neighborhood.

SUBURBAN CEMETERIES

Our suburban cemeteries evidence the thought and care given to these outlying resting places in which repose the remains of many early settlers.

PARK COMMISSION

The Park Commission continues its fine work with the limited money at hand. Greeley Park shows the effect of gradual development. A real start has been made to make the North Common usable and fullfill the needs of years. Artillery Pond is being graded to meet the requirements of a definite plan so that in the future this area will be a beauty spot instead of an unsightly dump. Much might be done to improve the South Common. It is earnestly hoped that within a reasonable time our parks and commons will take on the appearance of real recreational centers. While speaking of parks it may not be amiss to mention that Nashua is not over endowed with areas of this kind. Other than Greeley Park, which was the gift of a public spirited citizen, we have no parks on the main thoroughfare which bisects our city proper. It might be worthwhile to acquire land between the State line and city for future needs. This important matter should be considered in the next few years while there are many tracts of land which could be obtained at a nominal price.

It would also seem that if we had vision we might look into the future and see that building and street lines should be established from the State line on the south to the Town line on the north which would be of immeasurable value to the abuttors and our citizens, as well as a joy to the travelling public. The future construction of a Mammoth Road or Grand Boulevard would do more to make this city notable than anything I can conceive of. This would only be another step in the evolution of the Daniel Webster Highway, from a trail to a path, followed by a cart road and now the great highway over which millions of autoists ride to Vacationland.

It is not the intent of this suggestion that all this should be done at once, but that this and coming generations should prepare by foresight to do things which should be done.

RECREATION COMMISSION

During the year recreational activities increased over previous years. Expansion and improvements in facilities have grown and now we have practically a twelve month program. Playground work has reached a stage where in addition to Director and assistants a force of six young women and seven young men and a special handicraft teacher are employed during the months of July and August. The single session attendance for the season totaled 47,447.

The annual lantern parade of the children was an artistic success this year and speaks well for the handicraft branch of playground training.

The swimming pool had a total single session attendance of 15,992. At the pool a chlorinator of sufficient capacity has been installed. The liquid chlorine added to the water sterilizes it and makes it safe from infectious diseases.

During the season the tennis courts were in almost constant use. New courts are now being built on the grounds of the Crown Hill School and will be completed early next season.

The public has taken advantage of the skating at the North and South Commons and it is a source of satisfaction to know that these rinks reduce the worry of parents while they also extend the skating days, for as soon as weather conditions interfere with the sport the rinks are prepared for use again.

OTHER DEPARTMENTS

Other municipal activities have been performed by appointive officers in a satisfactory manner. Some of the work seems of minor importance but it is all provided for under the laws, charter and ordinances and must be carried on as a necessary part in the conduct of the city's business.

CONCLUSION

The departments have uniformly kept within appropriations allotted to them. The finance committee has adopted a policy of not approving bills unless the money for payment of the work or materials has been previously provided. This is wise administration and is specifically provided for in the charter and should be rigidly adhered to in the future.

This year Nashua has felt some of the effects of a gradual slackening of business which has been reflected in valuations and idle labor with its attendant occasional suffering. In comparison with other places Nashua has been generally fortunate and I know it is the devout wish that the New Year will be an exceptionally happy and prosperous one for all.

Finally, I would quote to you what I have said before on occasions and repeat it with the belief that it is sound doctrine.—

—"Nashua's first city government took up its duties over seventy-five years ago. It was a happy occasion, for it signified the reuniting of friends and neighbors of Nashville and Nashua after a bitter separation of ten years. The division of the Town of Nashua was caused by an unimportant issue—Whether the Town House should be on the North side or the South side of the Nashua River. Sectional or other causes of hasty differences are always unfortunate and tend to destroy harmony. It was true then and it is true now, for it is only through cooperation and mutual understanding of all the people and all the elements which make up a city that a community can progress." "American cities usually grow and prosper just in proportion to the willingness of their citizens to be united and pull together for the common weal which means the good of the whole community. A city cannot be divided on any short lived issue for any length of time. This was amply demonstrated over seventy-five years ago in Nashua."

I sincerely thank all my colleagues and officials for the uniform courtesy and assistance they have given me in the performance of the city's business.

Respectfully submitted,

WILLIAM F. SULLIVAN,

Mayor.

WILLIAM F. SULLIVAN, Mayor,
SAMUEL DEARBORN, City Treasurer,
GEORGE D. SPALDING, Alderman at Large,

Trustees of the Sinking Fund,
City of Nashua, N. H.

Report of the City Solicitor for the year 1929

To the Honorable Board of Aldermen:

The outstanding city matter, with respect to the Legal Department, during the year 1929, was the trial of the case of Edward H. Wason against the City of Nashua, involving a strip of land on Main Street abutting the property of Mr. Wason in which there was a claim that the City had taken said land for street purposes without having paid for it. There was a verdict in favor of the plaintiff for $7,500 which was not excessive in that the plaintiff set a very much larger figure as its value. The question of transferring to Supreme Court or payment of the verdict has been left to our successors.

During the year, many items of minor importance were taken up and disposed of, and the usual advice given to the various Departments of the City.

The manner of the bridge over the Nashua River, the Main Street was in conference several times, and much correspondence was had with the engineers who had charge of its construction under both contracts. This was another matter of importance which continued over beyond our Term of Office.

Respectfully submitted,

ALVIN A. LUCIER,
Solicitor

Report of the Police Commissioners

March 17, 1930.

To His Honor the Mayor and the Honorable Board of Aldermen of the City of Nashua, N. H.

Gentlemen:

Enclosed, find detailed report of the number of arrests, disposition of same, incidental service, etc., of the Police Department for the year 1929.

Traffic Problem has been somewhat solved and we feel that the New Traffic Lights on Main Street have served to speed up traffic and help congestion of the automobile situation.

Respectuly yours,

Board of Police Commissioners,

ARTHUR A. DEMONTIGNY,
WILLIS A. SHEDD,
JOHN W. COFFEY.

Report of the Chief of Police

To the Board of Police Commissioners of the City of Nashua.

Gentlemen:

I hereby submit the Annual Report of the Chief of Police for the year ending December 31, 1929.

The total number of arrests for the year was 1125, of these, 1070 were male, and 55 were female.

ACCIDENTS WHICH PROVED FATAL

Automobiles	3
Drowning	2
Suicide	3

For the purpose of maintaining safety in this city, a map of the City of Nashua was utilized to check off each and every case of automobile accident during the year 1929, wherein personal injury or where any fatality took place. The map developed very definite points of apparent great danger and liability for accidents which is the intention of the department to study this year to find out why conditions are such that cause accidents at certain points and what can be done to relieve the condition.

From the compilation of the accidents, it shows that during the year, on West Hollis St., from Main to Hanover St., there were 14 accidents where personal injury was involved, while on East Hollis St., from Main St. to Harbor Ave., not a single accident occurred. On East Hollis St., from Harbor Ave. to the Hudson Bridge, there were only seven accidents, one of which was a fatality.

On the entire length of West Pearl St., there were nine accidents, while on East Pearl St. there were none.

At the intersection of Canal and Chandler Streets, there were six accidents. On Main St., from Deschesnes Park to Factory St. there were eight accidents with one fatality; on Main Street, from Factory St. to Allds St., there were only four accidents. On Pine St., from Kinsley St. to Lovewell St., which is a very short distance, there were six accidents. The rest of the accidents are scattered throughout the city with, apparently, no definite reason for an accident other than the usual causes.

Any of the foregoing accidents do not include accidents where property damage existed only, but all were of a serious nature where bodily injury took place.

In summing up the situation it appears that this city has five danger points; on West Hollis St., from Main St. to Hanover St., on entire length of West Pearl St.; Main St., from Deschesnes Park to Factory St.; at the intersection of Canal and Chandler Streets, and Pine St., from Kinsley St. to Lovewell St.

A complete study of this situation will be made by this department this year in an attempt to remedy the situation where it can so be done.

Respectfully submitted,

IRVING F. GOODWIN,

Chief of Police.

Report of the Fire Commissioners

To the Honorable Mayor and Board of Aldermen,

Gentlemen:—

We respectfully submit to you the report of the Fire Department for the year ending December 31, 1929.

The Board of Fire Commissioners, consisting of H. C. Lintott, C. H. Austin and E. W. Duncklee, met January 1st, and organized by electing H. C. Lintott as chairman and E. W. Duncklee as Clerk.

Fire Prevention Week, October 7th to 15th, was again fittingly observed by the Department.

INSPECTIONS OF THE DEPARTMENT

Officers and members have made inspections of Blocks, Cellars, Yards, etc., to guard against the accumulation of rubbish and inflammable material and to note any conditions liable to cause fire.

These inspections are of great benefit to the citizens and property owners in general. The inspections are also of great value to this department, allowing the members to familiarize themselves as to the nature of contents and the construction of the different buildings within their districts.

We think that every effort should be made to lower our insurance rates.

In conclusion we wish to extend our thanks to His Honor, the Mayor, and the members of the Board of Aldermen, for their co-operation and interest in our department, to the Chief of Police and members of the Police Department, to the Superintendent and employees of the Water Department for valuable services rendered, also to the Gas and Electric Department of the Public Service Company.

The Officers and members of the Fire Department have our commendation and sincere thanks for the efficient and faithful manner in which they have performed their duties.

FIRE ALARM TELEGRAPH

This branch of the service is now in good condition except the placing of the wires in ducts located by the New England Telephone and Telegraph Co. in place of the overhead wires, which work is still in progress as fast as ducts are laid. As the growth of the City is extending its lines in the outlaying districts, we would recommend a Special Appropriation to cover the cost of extending the Fire Alarm System in these sections. Especially in the North, South, and West sections of the City.

Respectfully submitted,

H. C. LINTOTT,
C. H. AUSTIN,
E. W. DUNCKLEE,
Fire Commissioners.

Report of the Board of Health

To His Honor the Mayor and Board of Aldermen:

The number of contagious Diseases during the year 1929 was about normal for this City. At different times during the year we used Antitoxin, Dick Test, Prophylactic and antigen. Contagious Diseases during 1929 were very mild.

During the year we carried on the immunizing work against Diphtheria by giving 8400 injections of Toxin, Anti Toxin and Shick Tests to Parochial School Children, Good Cheer and Community Council Clinics. 594 children in Public Schools were given Toxin Anti Toxin by School Physicians during the year. The Serum being furnished by this Department.

Very good work is being done by Dr. Kerr and his Assistant in the Tuberculosis Clinic. Rapid stride is being made in this Department to eliminate tuberculosis, through tests, examinations, etc.

A great deal is being accomplished in the Venereal Diseases Clinic, although very little is said about this work.

During the year, vaccinations against Small Pox was carried out in the Parochial Schools in our City and the follow-up work in communicable and contagious diseases was carried out in these schools.

The annual Clean-up Campaign was carried out in conjunction with the Board of Public Works and the results of this work was very satisfying to this Board.

The Meat Inspection Ordinance passed by your Board has been in operation this year and we are more than pleased with results for it has proven that Meats were sold in this City that should have been rejected. The report of Meat Inspectors will give you the number of Animals slaughtered, the number passed and also the number rejected.

The following cases were reported during the year 1929:

Scarlet Fever	17
Diphtheria	15
Chicken Pox	8
Whooping Cough	2
Measles	28
Typhoid Fever	2
Total number of cases reported	72

The above figures show only cases reported to this Board. Many cases of Mumps, Measles and Chicken Pox were not reported. In 1928 573 cases were reported. This year showed a marked improvement.

Respectfully submitted,

O. S. MAYNARD, M. D.
ALFRED DAUDELIN, M. D.
ERNEST R. LEVESQUE,
Nashua Board of Health.

Ice sent to Concord for Analysis	4
Boarding House Inspections	29
Fish Market Inspections	8

The usual work of this Department was carried on during the year, and the usual Clean Up Campaign held during the month of April with Co-operation of Mr. J. A. Moussette, an employee of the Board of Public Works, as Assistant. The City showed a marked improvement in conditions over any previous year. The Yards and Alley-Ways were greatly improved. I have had the best of Co-operation from the Merchants and Citizens in this respect.

During the year 1929 eight storekeepers were summoned into Court for not complying with State Law in regards to the protection of Food and Bakers goods, from Dust and Dirt. Seven were discharged and one was fined and he appealed.

In many ways I was aided with the faithful Co-operation of our State Food Inspector Mr. J. X. Duval, Milk Inspector, Mr. Albert E. Smith and the Public Health Nurse, Miss Lillian B. Morin, in my investigations, together with your co-operation at all times.

Respectfully submitted,
EUGENE HYSETTE,
Health Officer.

Report of the Public Health Nurse

To the Nashua Board of Health,
Nashua, N. H.

Gentlemen:

I respectfully submit to you the following report as Public Health Nurse of the City of Nashua from January 1st, 1929-1930.

VISITS

During the year I made 542 visits in different parts of City, assisted the Community Council Nurses three times in getting the children ready for the summer camp. Assisted at 29 Clinics in Schools and Good Cheer Society. Also made 34 visits and examinations in Parochial Schools.

The general co-operation which I have received from the Doctors of this City and neighboring towns, Good Cheer Society, Community Council and the public has been most helpful, and for this I wish to thank them.

Respectfully submitted,

LILLIAN B. MORIN, R. N.

Report of Meat Inspectors

To the Nashua Board of Health,
Nashua, N. H.

Gentlemen: We respectfully submit to you the following report as Meat Inspectors of the City of Nashua from January 1st, 1929-1930.

The following number of animals were inspected and slaughtered.

	Calves	Cattle	Hogs	Sheep	Condemned
January	57	22	99	115	1 Cow 1 Calf
February	49	8	72	118	2 Cows
March	65	13	16	106	1 Cow
April	82	14	3	124	
May	92	25	6	240	
June	88	25	3	177	1 Cow
July	105	18	0	127	2 Cows 1 Calf
August	105	14	1	194	
September	86	14	14	185	2 Sheep 2 Hogs
October	96	22	91	211	2 Calves 1 Hog
November	80	20	139	191	
December	60	15	133	169	3 Calves 1 Sheep
Total	965	210	577	1957	7 Cows 7 Calves 3 Sheep 3 Hogs

During the year 1929 considerable improvement has been made in the slaughter houses in this City. Two owners have built new buildings discarding their old and unsatisfactory plants, the other three were remodeled with our suggestions making it possible for the animals to be slaughtered in a clean manner so as to insure a clean meat supply dressed in our City.

The general co-operation which we have received from Dr. H. M. Lewis and others has been most helpful and for this we wish to thank them.

Respectfully submitted,
EUGENE HYSETTE,
ALBERT E. SMITH,
Meat Inspectors.

Report of Milk Inspector

To the Nashua Board of Health:

I respectfully submit the following report as Milk Inspector from January 1, 1929, to January 1, 1930:

EXAMINATIONS OF MILK

	Satisfactory	Unsatisfactory	Total
Butterfat	303	17	320
Bacteria	254	53	307
Sediment	175	25	200
Farm Inspections			190
Milk Plant Inspections			280

This year I have spent a little more than half of my time in the slaughter houses inspecting meat. This was necessary because conditions were very unsatisfactory. The houses were old and unsanitary but after two new slaughter houses were built conditions were better. However, there is still room for improvement.

One very noticeable fact this year has been the increasing volume of market milk, and sold as such, which is of Grade A quality. The amount of milk which sells for more than 15c a quart is very small, due to competing in the market with a large volume of milk of equal quality at 15c or even lower.

I deeply regret that the proposed Ordinance requiring all milk to be pasteurized was not passed. We have a good raw milk supply coming from over 200 farms but we cannot tell when some contagious disease will show up on these farms with the possibility that it may be carried to the milk and through the milk to our people. If this milk was properly pasteurized this danger would be avoided. Pasteurization eliminates the dangers which a milk inspector cannot see.

Respectfully submitted,

ALBERT E. SMITH,

Milk Inspector.

Nashua Hospital Association
Report of the Treasurer

To the Members of the Nashua Hospital Association:

Your Treasurer submits the following Annual Report for the year ending December 31, 1929, according to the books and records of the Association.

Nashua Hospital Association
Report on Training School for Nurses

TO THE NASHUA HOSPITAL ASSOCIATION:

Gentlemen:

The following is a report of the Training School Committee for the year 1929:

Number of Nurses in training school January 1929	28
Number of Nurses graduated during the year 1929	7
Number of Nurses accepted during the year 1929	20
Number of Nurses withdrawing during the year 1929	5
Number of Nurses' applications received	37
Number of Nurses in training school January 1930	33

The adequate housing and the employment of a full time instructor have done much toward the Training School, being supplied, as it is, with its full quota of nurses.

The course of training throughout the year was conducted along lines similar to those followed in previous years, with some additions. The probation period has been lengthened to four months, most of this time being devoted to class work wherein the pupil learns the essential principles of nursing before she comes in contact with the patient. A course in Dietetics, a very important subject, is given by the Dietitian of the Hospital, who, in addition to class work, has one nurse under her personal supervision for a period of four weeks, thus giving them a thorough practical training in preparing food for patients.

All departments have had their nursing force increased, which should tend toward maintaining a higher standard of work in each department. We wish to make a diploma from the Nashua Memorial Hospital Training School indicate a standard of efficiency, second to none, and with that in view expect the nurses to show increased efficiency with the increased months of training.

Respectfully submitted,

Committee on Training School,

MARY A. SWEENEY, M. D., Chairman.

Report of City Physician

To his Honor the Mayor and the Board of Aldermen of Nashua,

Gentlemen :—

I submit the following report for the year ending December 31, 1929.

During the year I made 1104 house visits, 23 visits to Police Station, 5 examinations for commitment and gave 699 office consultations.

Respectfully submitted,

ROMEO J. PARADIS,

City Physician.

Report of the Board of Public Works

The Honorable Board of Aldermen:
Nashua, N. H.

Gentlemen: The following is the report of the Board of Public Works for the year 1929.

The appropriations were as follows:

Regular	$150,000.00
Trunk Line Maintenance	10,000.00
Sewers, Balance from 1928	12,252.12
Permanent Paving, Balance from 1928	17,206.62
Canal Street Bridge, Balance from 1928	4,111.66

PERMANENT PAVING

The following list of Streets were paved, including the resetting of granite curb, cutting of trees, and building of catch basins where needed.

Cross Street from Canal to Whitney

Cement concrete gutters completed and asphalt top with crushed stone base	1,075 Sq. Yds.

Holman Street

Asphalt top with crushed stone base	404 Sq. Yds.

Stark Street

Asphalt top with crushed stone base	1,402 Sq. Yds.

Cottage Avenue

Asphalt top with crushed stone base	547 Sq. Yds.
Cement concrete gutters	233 Sq. Yds.

Temple Place

Asphalt top with crushed stone base	323 Sq. Yds.

Fulton Street

Asphalt top with crushed stone base	1,324 Sq. Yds.
Cement concrete gutters	226 Sq. Yds.
Cement curb	1,039 Lin. Ft.

Arlington Street

Asphalt top with cement concrete base ..... 2,229 Sq. Yds.
Cement concrete gutter ..... 509 Sq. Yds.

This work was done with the Permanent Paving Fund, and cost $10,338.76, leaving a balance of $6,867.86.

Trunk Line Maintenance

This appropriation was for maintenance on the Trunk Lines, and State Aid Roads. It was also used to lay a drain through the land of Dr. Haggerty, to relieve the surface water on the Daniel Webster Highway, near the City Asphalt Plant.

Of the appropriation $9,990.15 was spent leaving a balance of $9.35.

Canal Street Bridge

The land of the Jackson Mills was graded and loomed, seeded, and the amount of the bill of the Nashua Street Railway Company, for the extra work installing their tracks on the new bridge was also taken out of this appropriation, leaving a balance of $2,790.31.

Sidewalks

There were 17,746 Sq. Yds. of Cement Concrete Sidewalks constructed. The sidewalks were five feet in width, and would equal 6.05 miles in length.

This is 2.72 miles more than constructed in 1928.

Main Street Tracks

Main Street from City Hall to Hollis St. ..... 2,683 Sq. Yds.

Granite blocks between the rails of the Nashua Street Railway Company, from the City Hall to W. Hollis Street, were relaid and grouted. The City doing all the work but the raising of the tracks, and the building of the catch basins, the Street Railway Company doing this work themselves.

The cost of this work was taken out of the regular appropriation.

SEWERS

There were no large sewers constructed this year. Following is a list of small sewers constructed:

	Length	Size Pipe
Wonalancet Land, Burke to King St.	584 Lin. Ft.	18" and 15"
King Street	480 Lin. Ft.	15"
Notre Dame Avenue	330 Lin. Ft.	12"
Tetreau Street	153 Lin. Ft.	12"
Columbus Avenue	525 Lin. Ft.	10"

Raymond Street	331 Lin. Ft.	10" and 15"
Raymond Street	371 Lin. Ft.	12"
Farley Street	476 Lin. Ft.	12"
Douglass Street	162 Lin. Ft.	10"
Hill Street	116 Lin. Ft.	10"

There were 3528 Lin. Ft. of sewers constructed, also twenty-three manholes.

EXPENDITURES

Following is the list of the expenditures:

Office hours: 8:45 to 9:15 A. M., and 1:45 to 2:15 P. M.

Report of the Superintendent of Schools

To the Board of Education,
Nashua, New Hampshire.

This is the sixty-third in the series of annual reports by superintendents. The accompanying reports from the several school departments are worthy of thoughtful examination in order to obtain a comprehensive view of the activities of the past year in the public schools of this city.

The school census, recently completed, shows the enrollment in

	1929	1928
the public day schools to be	4,507	4,334
In private schools	2,670	2,784
In public and private day schools	7,177	7,118
In evening schools	230	274
Total in public and private schools ..	7,407	7,392

The increase in the public schools was about equally divided among the three departments—High School, Junior High School, and Kindergarten. There was no change in the grade schools.

The resignations of teachers for the year include those of Jane Sweetser, Eileen Monahan, Ellio Roundy, Marion Leonardi, Margaret Sullivan, and Janet Cutter.

Miss Jennie Reed is having a year's leave of absence.

The new teachers are, in the High School, Forrest Hatch, Henry Sharpe, Edmund Keefe; in the Junior High, Mary Shea; in the grades, Rosaleen Roche; in the kindergartens, Claire Hickey, Helen Kendall, and Dorothy Gordon.

Miss Charlotte Cushing returned to her school duties at the opening of the winter term after an absence of nine months caused by a fall in the Palm Street school house.

Webster White came back to his classes the first of November. He had been out of school seven months on account of illness.

Helene Keeley reentered school after a year's leave of absence granted on account of ill health and Helen Small received her degree from college and was given a position in the High School after being away from teaching for two years.

In the last three years forty-six Nashua girls have been graduated from the Normal schools at Plymouth and Keene and in the same time we have had only six vacancies in the grade schools of the city. These vacancies have been filled from the forty-six local candidates and it is not necessary to point out that forty candidates had to seek for positions away from home. As far as Nashua is concerned we would not be short of teachers if three years of post secondary training were required of all candidates for teaching positions in the grades. All the Massachusetts normal schools now require three years as the minimum period of training.

Mr. E. G. Hood who served as supervisor of music in the public schools of this city for twenty-nine years died February 25, 1929. Besides his work in the schools, he had accomplished a great amount through the Oratorio society of Nashua and other choral societies in Peterborough, Rochester, Manchester, Lowell and Lawrence.

When the present school year opened, in the Ash Street School, a fifth grade replaced the first grade because of the decrease in the number of first grade pupils in that neighborhood. All the first grade pupils have been cared for in the Palm Street building without overcrowding while the securing of a room for fifth grade pupils has avoided for them the long walk formerly required of these children. This arrangement was not possible a few years ago because then there were more primary children in the public schools in that locality. The decrease in children appears to be related to the decrease in employment.

We have been following what is termed the Eight Weeks System. After New Year's the schools keep about eight weeks and then have a week's vacation, keep another eight weeks and have a week's vacation and then finish the school year with about eight weeks more. The arrangement has been fairly satisfactory except that it has shortened the Christmas vacation from two weeks to one and after Christmas the schools open before New Year's day so that there is some confusion about whether schools are to be in session or not. The private schools were closed for both Christmas week and New Year's week. It might be better for the public schools to keep till the day before Christmas and to open the day after New Year's.

During the year 1929 the salaries of 38 teachers were raised under the schedule which provides for certain increases because of experience, the salaries of forty-six other teachers were raised because of courses passed, four teachers earned increases by foreign travel and nine teachers, mostly men, were given increases by vote of the school board. The annual increase in the salary account for the last three years has averaged about eleven thousand dollars.

The exact figures in this account for the last three school years are as follows:

		Increase
1926	$284,080.58	
1927	296,261.48	$12,180.90
1928	307,183.12	10,921.64
1929	316,059.16	9,876.04

This account includes all the salaries of all the employees of the school department.

July 1, 1929, there was held a meeting composed of a special committee from the school board and representatives from the service clubs of Nashua to consider plans for forming a boys' band. Mr. Harry A. Gregg stated that he was willing to furnish instruments, the ownership of which should pass to a board of trustees to be appointed, for such a band provided any boy in Nashua could be eligible to membership in the band. After a general discussion it was voted in substance that (1) The offer of Mr. Gregg be accepted (2) A Nashua Boys' Band be organized (3) The discipline of the band members be entirely in the jurisdiction of the school board (4) The direction and general management of the band be under the Board of Education, and the Board of Trustees composed of seven members viz: one each from the Rotary Club, the Lions' Club and the Young Men's Business Club, and two members from the Board of Education besides the Superintendent of Schools and the Headmaster of the High School. (5) Any boy a resident of Nashua should be eligible to membership in the band, but that exact rules concerning membership be left to the Board of Trustees.

Later at a meeting of the Trustees it was decided that any boy under 20 years of age would be eligible provided he could meet the following requirements:

(1) Show talent for music.

(2) Be willing to take lessons from an approved teacher at his own expense.

(3) Be prepared to give adequate time to practice.

(4) His parents be willing to report the time spent in practice and at lessons.

The first public concert by the Boys' Band was given January 17, 1930. The playing was surprisingly good, 1,554 tickets were taken at the door.

Some improvements to the grounds and buildings have been made this year and mention may be made of the addition to the school yard at Shattuck Street; the hard surfacing of playgrounds at the Junior High, Crowley and Shattuck St.; and the dividing of the last large room in the Junior High into two recitation rooms; the installing of slate blackboards in two rooms at the High School, two at the Junior High, and eight rooms at the Arlington Street; the setting up of two metal fire escapes for the Mulberry Street; two for the Shattuck Street, two for the Palm Street, and two for the Lake Street. The hall and all the rooms on the third floor of the Junior High building were thoroughly renovated.

This fall more than sixty mothers with children between the ages of four and six petitioned the school board for a kindergarten in the O'Donnell district. The petition was considered by the board and by the finance committee of the Aldermen and the request granted. An expenditure of $1500.00 was authorized for 1929. There had been no school in the O'Donnell building for three years and no kindergarten there since 1921. The two north rooms, formerly occupied by the kindergarten, were being used as store rooms for playground apparatus and school furniture. These rooms were cleared and put in order and the kindergarten opened October 28. The enrollment has been even greater than expected, 82 in all. It is fortunate that the building was not sold as some people, soon after it was vacated, advocated should be done.

In April, 1927, a report was submitted to Mayor Eaton D. Sargent, by four school superintendents from New Hampshire cities, concerning the school buildings of Nashua. These four experienced school men figured the probable enrollment of the Nashua High School each September for the next four years as close to 1,000 pupils, or about 150 more than had been enrolled that year. They also stated that the High School plant was being used to 84% of its capacity on the basis of a six period school day. Now, if 859 pupils were 84%, 100% would be 1023 pupils and so far this year we have listed 1055 in the High School register.

I began teaching in the Nashua High School in September, 1892. There are only eight teachers in the Nashua schools now who were

elected before that date. I taught for twenty-six years in the High School and there are now forty-nine teachers in the Nashua schools who began their teaching in that period. In the summer of 1918 I was transferred to the office of the superintendent and there are 105 teachers in the service of the City who have come in since that time. The changes have been less frequent in the last few years, partly because conditions are more stable than in the war period and partly because the teachers are receiving larger salaries.

Respectfully submitted,

CHARLES H. NOYES.

Report of Assistant Superintendent of Schools

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith submit my second annual report as Assistant Superintendent of Schools.

SECTION 1

Educational Policy

The senior high school is now overcrowded with an enrollment of 1,051. This building was originally planned to accommodate 750. The junior high school has an enrollment of 702. This building was constructed to provide for 450 pupils. In both of these high schools every possible space is being utilized for class activities. A situation faces us which makes it imperative to provide a solution for this congestion at the opening of school in the fall of 1930. How shall this increased registration in the high schools be cared for? To my mind, this question cannot be satisfactorily answered until the educational policy of the city has been determined. In other words, shall we adopt the 6-3-3 system or continue to operate on the 6-2-4 basis? There is no need to go into details regarding the relative merits of these two systems as this subject has been quite fully presented in a number of annual reports. To ignore the question and to merely provide for additional accommodations at the senior high school is to tacitly commit the city to the 6-2-4 program for at least twenty years.

There are three alternatives which offer themselves as solutions:

1. To continue on the 6-2-4 basis procuring land adjoining the present senior high school upon which to erect an annex.
2. To adopt the 6-3-3 plan building another junior high school in another section of the city.
3. To adopt the 6-3-3 plan procuring land adjoining the present junior high school upon which to erect an annex.

The acceptance of the first alternative means the rejection of the 6-3-3 plan with all its advantages. The acceptance of the second alternative carries with it many attendant problems. The present junior high school is centrally located. To locate another school so that the school population would be equally distributed between the two schools is impossible. The Nashua river is not a dividing line. A plot of the present junior high school population shows that 508 pupils live south of the Nashua river. One hundred and ninety-four pupils live north of the Nashua river. Of these 194 pupils there are 50 who live nearer the present junior high school than they do the Mount Pleasant school. Of these 194 pupils there are 18 pupils who live beyond the city limits and are transported. If another junior high school were to be built it would seem that it should be located somewhere in the vicinity of the South Common as this would be accessible to the greatest number of pupils.

There are other factors which must enter into the consideration of this alternative. A new building should include the much needed gymnasium for the junior and senior high schools. It would seem advisable also to incorporate as one unit the Mechanic Arts department, thereby eliminating not only the present unsatisfactory situation at Quincy Street School but as well the expense of the rental of the Morey building on Spring Street. The removal of the shops from Quincy Street would provide sufficient basement room for the present elementary school which is so badly limited in basement facilities as well as playground space.

I, therefore, suggest that a committee of the Board of Education, together with the Superintendent of Schools, study the merits of the 6-3-3 system from the standpoint of its application and suitability to the situation in Nashua.

SECTION 2

High School

The high school has completed a worth while year. The graduating class consisted of 153 pupils. Thirty-eight pupils or approximately 25% have entered colleges or universities. Seven pupils or over 4% have entered normal schools. Ten pupils or over 6% have entered other institutions of learning. Of the 44 graduates in the commercial course 43 are engaged in this vocation. The percentage of men teachers has been increased from 18% to 28%. I have been greatly impressed and pleased with the professional spirit as it manifests itself in this school.

The ninth and tenth years form the crucial period in this school. I would suggest that more of the experienced teachers be used in these classes rather than the younger recruits to the service.

SECTION 3

Junior High School

The junior high school presents the problem, previously referred to, of evolving into a three year school or remaining on its present basis. This will necessarily be determined by future study. Such a change will involve much curriculum readjustment and readaptation. In spite of the crowded conditions and the short period of two years the school is doing much in the guidance of adolescent boys and girls.

SECTION 4

Over Age Pupils

For the past two years a definite effort has been made to eliminate some of the retarded pupils in our elementary school. A study of the accompanying table will show that the normal group of pupils in grades 1-2-3 represents the average situation. In grades four, five, six, seven and eight there is a decided retardation with the normal group falling on an average below 60%. Remedial and extra work by the teachers will not absorb this annual percentage of retardation. The cause may be attributed largely to the fact that at the beginning of the intermediate grades there is a large influx of pupils from the parochial schools. This group, because of language difficulties, finds it impossible to make even progress with the others. Our solution lies in the establishment of several additional special rooms and in the appointment of a special, helping teacher. Such a teacher would have time to give diagnostic and remedial treatment to this group, thereby making it possible for them to progress normally. Retardation in every case represents added expense. Agencies to eliminate retardation will more than pay for themselves.

SECTION 5

Grades

(1)

—Testing—

The following testing program is now in operation in our schools. Two years ago all pupils were given an intelligence test to determine their potential capacity for learning. The results of these tests were recorded on A. D. P. card of each pupil. This year it was only necessary to test the pupils of the first grade and any new pupils who entered our

																	1	1	12	23	59	63	41	50	37	41	12	8	0	3		

system. The tests given were standard tests of accepted reliability. They were:

(1) the Detroit First Grade Test—Grade I
(2) the Haggerty, Delta 1 —Grades II and III
(3) the National Test —Grades IV, V, VI
(4) the Terman Group Test —J. H. S. and S. H. S.

In addition to the intelligence test each child in the elementary schools was given the Stanford Achievement Test which measures ability in the fundamental subjects. The results of this test have been of inestimable value to the teachers in organizing their classes, providing for individual differences and remedial work, as well as a guide in determining promotion and acceleration. A profile or classification card is used to record these standard data as well as the personal history of the child. This card is cumulative following the child from year to year, enabling succeeding teachers to have at their disposal the most complete facts concerning each individual child. This information is invaluable in placement work. A specimen card may be found on opposite page.

(2)

Curriculum Revision

Mathematics

The teachers have realized for some time that the course of study in arithmetic was not entirely satisfactory for our city. To remedy this condition the elementary school teachers have been divided into groups, (1) primary, (2) intermediate. Each group is working by means of discussion and demonstration meetings to formulate a more workable and practical course. When this course has been completed it will be presented to the Board of Education for its approval.

Reading

Much improvement in the teaching of reading has been effected during the last year. This has been accomplished by the recognition of the need of careful diagnosis and proper remedial work as well as by observation of successful methods in demonstration classes.

Writing and Spelling

There is a continued interest in the results obtained in these subjects. Forty-three of the teachers now have the Palmer Certificate. Belvidere and Mulberry Schools have 100% in this respect. The other teachers

ought to be required to obtain this certificate within a reasonable time if the efficacy and continuity of the work are to be preserved. Standard spelling requirements are now in operation. Annual competitive matches are held to stimulate this work.

(3)

Teachers' Meetings

A principals' cabinet has been formed which meets regularly the first Monday of each month at the office of the Superintendent of Schools. This cabinet considers problems of school administration, teaching practices, as well as routine matters. Such an organization has a tendency to establish a good spirit throughout our schools as well as to produce more homogeneity.

Grade meetings have been held from time to time. These meetings have been primarily planned to present the best methods of teaching in the various subjects through demonstration classes and discussion hours. The teachers new to the service ought to find them of much practical value.

SECTION 6

(1)

Supplies

During the past year an attempt has been made to reduce our costs for school supplies. Inventories of all supplies were taken in the different schools. Estimate of necessary supplies for the coming year were checked on the basis of preceding years. Comparative statistics of consumption were made and any tendency to overconsume was checked. Supplies were purchased for the entire year by means of competitive bidding. The bulk of the supplies were shipped directly to the individual schools thereby eliminating the cost of trucking. The supplies were purchased in February which month according to statistics over a period of years shows school supplies to be at their lowest cost. A decided saving in consumption and purchase price was effected by this procedure. The following charts taken from the Nation's Schools show the yearly and monthly costs of instructional supplies.

Conclusion

I am deeply indebted to the teaching corps for their co-operation and professional spirit, manifested in so many ways without which the success of this year would have been impossible.

Respectfully submitted,

EARL T. TRACEY,
Assistant Superintendent.

Report of the Headmaster of the High School

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith submit the annual report for the Senior High School.

I wish first to call your attention to the number of reports submitted each year covering the work of the high school; the report of the principal, the report of the manual arts department, the report of the domestic arts department, and whatever is included in the reports of two superintendents. The high school material is covered so many times that it is difficult not to write similar reports, as you can see by two of the reports written last year.

It is common knowledge that the high school building is full, and a situation must be met before next September or the Freshmen will necessarily meet afternoons. Whether a 6-3-3 plan is adopted or a 6-2-4 plan is continued, it must be decided at once. It is obvious that there is not room enough on the present lot for an addition that will suitably accommodate the increased number. If the ninth grade is to be in the Junior High School, the Senior High School, even with the room then available, must be equipped with two new laboratories and a new bookkeeping room. The bookkeeping room could be provided from rooms left after the Freshmen were removed, but there is no possible room for two new laboratories, nor would there be any provision for the cooking classes which tramp daily through the boiler room and shop, to their kitchen in the Quincy Street building.

If any change of system or an addition to the high school be made, I suggest again that a gymnasium be included for our Senior High School pupils. If you would just enumerate in your mind all the city high schools of this state, I think you would find that Nashua High is the only one without a gymnasium. Any new building or addition would be a mistake that did not include a gymnasium usable for both the Junior and Senior High Schools.

Our interest in an addition to the school plant ought not to obscure the fact that this building has now been occupied nearly eleven years and the walls of the rooms are sadly in need of paint.

The kind of growth within the school can be seen by an examination of the per cent taking each curriculum since 1919, when we entered this building.

Curricula	College	General	Commercial	Practical Arts
1919—1920	37%	11%	32%	20%
1920—1921	32	13	37	17
1921—1922	31	15	38	15
1922—1923	32	17	37	13
1923—1924	34	22	30	13
1924—1925	34	18	33	15
1925—1926	36	13	33	17
1926—1927	33	12	36	19
1927—1928	30	11	39	19
1928—1929	29	11	40	19
1929—1930	26	12	42	20

This shows that we have now not many more college preparatory pupils than in 1919. Those pupils were always in school, but the pupils of the other curricula were not until more recently.

It is interesting to notice that our pupils remain in school well when compared with other cities of the state. The data below show the per cent that the graduaing class was of the entering class.

	Berlin	Dover	Ports-mouth	Man-chester	Con-cord	Keene	Nashua
1919—1920	40%	34%	61%	56%	61%	50%	60%
1920—1921	110	51	53	45	52	54	54
1921—1922	40	40	47	48	57	48	50
1922—1923	64	51	61	64	68	40	62
1923—1924	63	60	54	64	55	50	74
1924—1925	67	48	64	59	53	47	60
1925—1926	74	75	55	48	62	43	63
1926—1927	58	49	59	68	56	62	59
1927—1928	60	72	65	58	52	61	54
1928—1929	68	43	62	63	61	64	64

The Freshmen were again this year given the Terman Group Test, which revealed that 19% of the class had scores above 110, 57% were between 110 and 90, and 24% of the class were in the slow group below 90.

The average teaching load, not including shop, is 534 pupils. We have 45 classes with 30 or more pupils and 99 over 25.

Of the 153 graduates 38 entered colleges, 7 entered normal school, and 10 entered other schools. It seems to me a little hopeful that a smaller number of pupils are attending normal school and more choosing college, inasmuch as many of the normal school graduates will consider nothing but the local demand.

I would like to suggest that, since this is now a large high school, only experienced teachers be engaged. I think I can appreciate the demands made upon the superintendents and members of the Board by interested parents and friends that this or that one be given a place on the teaching staff. That kind of a favor helps one family, but the thousand or more families represented by the pupils certainly have a greater right to be favored. No one who has the interest of the school at heart will refuse any one consideration who has taught successfully two years.

Appeals are being made for positions not only by the untried, but also by those who have tried several kinds of work with indifferent success, and now wish to try teaching even though they never prepared for it.

It seems imperative, since there is no scarcity of teachers, that the rule adopted some time ago requiring two years' experience be followed, and that only those college graduates be considered who have had special training in education.

The reports of the Freshmen at the University of New Hampshire are satisfactory. All those recommended were very successful, and the entire group—both those recommended and those not—had an average above that of the Freshman Class at the University for the corresponding term last year.

Four of the five candidates passed the college entrance examinations —a record to be envied by any high school and one that will probably be envied by this school most years.

It is a pleasure to remind you and also myself that the progress and equilibrium of the school is the result of the effort and willing co-operation of a loyal teaching staff. The recognition of these facts is too often forgotten when considering the causes of a successful school.

I wish to express my thanks to the superintendents and the members of the Board who have been of assistance to the school during the year.

Respectfully submitted,

WALTER S. NESMITH,

Headmaster.

January 30, 1930.

Report of Principal of the Junior High School

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, N. H.

Dear Sir:

I herewith respectfully submit the annual report for the Junior High School for the year 1929.

The present enrolment of the school is 702, 341 in grade eight, 361 in grade seven. The classes in the seventh grade average 36 in number. Some divisions have as many as 40 pupils. With such large classes a teacher is seriously handicapped in attempting to deal with individual differences. Many of our classrooms have a seating capacity of 35 and 36 with little or no room for additional chairs and desks. Every available room is used for classes as far as the schedule will permit. The limit of expansion by remodelling has been reached. If our enrolment increases by 50 pupils another year it will be a physical impossibility to accommodate them. The numbers in the various classes should be reduced another year.

Guidance

The fundamental idea of a junior high school is adequately expressed in the one word guidance; guidance in all the fullness of its meaning, vocational, avocational, civic, physical, and moral guidance. The child enters the junior high school from the elementary school where the aim has been largely to provide him with the common training necessary for all children regardless of sex, social status, or future vocation. In the elementary school, children are handled en masse. In contrast to this, the junior high school attempts to give attention to the needs of the individual child. The individual pupil becomes the center of instruction. Through an enriched curriculum, through wise exploration in subject matter, through counselling and guidance, the junior high school attempts to bring its pupils in contact with influences that should give direction to their lives.

This whole matter of guidance involves a different routine, a different organization, a different point of view from the routine, program, and organization common to a grammar school. Segregation of children

of the seventh, eighth, and ninth grades into one building, the addition of a few subjects not usually taught in these grades, and provision for a departmental organization are not the fundamental criteria to be considered in judging the effectiveness of a junior high school. We should be more concerned as to the ways, methods, and effectiveness of the school in dealing with the following problems:

1. Attention to the individual child. Do the program of studies the organization of the school, the instruction in the classroom, medical inspection and health program all function to develop the individual child? Are children expected entirely to adjust themselves to the school or is the school as a whole a flexible organization attempting to adjust itself to its personnel?

2. Co-ordination between lower and high schools. Does the school successfully bridge the gap between the elementary and senior high school? What progress is being made in articulation of the work with lower and higher schools?

3. Vocational guidance. Does the school seriously attempt to open up to its pupils avenues of approach to the various fields of occupation?

4. Orientation. Is there any definite and unified program in force in the school which takes care of the group of subjects dealing with the problems of guidance and pupil participation, namely, Citizenship, Civics, Guidance (educational and vocational), Assembly, Club, and Home Room activities?

The classification card, developed and used for the first time last year in connection with pupils entering the junior high school, was a distinct contribution. These cards supplied us with the information so necessary in sectioning our seventh grade pupils according to ability. The interest, hard work, and careful thought on the part of the teachers of the sixth grade in connection with these cards is greatly appreciated. The classification cards have aided us materially in dealing with individual cases.

Each pupil entering the junior high school from the elementary schools, each pupil entering the eighth grade, and each pupil entering the senior high school was interviewed personally by the principal relative to the choice of subject matter and course of study. Pupils need much guidance and help in the selection of electives, course of study, clubs, outside activities, and vocations. Information regarding these matters cannot be imparted in a wholesale fashion. It is strictly an individual problem. Therefore, if the work is to be at all effective, it

should be systematically organized, and possibly placed in the hands of one or more teachers qualified to act in the capacity of advisors or counselors.

Progress has been made in articulation with respect to the senior high school in connection with the subjects of Latin and French. Much remains to be done. I personally feel that if we are at all serious about this problem of articulation definite steps will be taken within the next year to clarify the situation. It is a problem worthy of a year's study, involving exchange of teachers, inter-visitation, teacher committees of the various subjects in the two schools, and perhaps slight changes in the curricula of the two secondary schools.

This year, and for the first year, we have included instruction in the course designated by the State Department as Vocational Civics. In reality it is a course in occupations. The work has been taken up in connection with seventh grade history. Other than this, we do little or nothing in opening up to the pupil this vast field of knowledge pertaining to the vocations. No attempt is made to assist pupils in the choice of an occupation, except in the case of a boys' club which aims to provide further study of the occupational field. No attempt is made to cooperate with the various industries in this city relative to placing boys who must leave school without the advantage of a high school education. Vocational guidance, as well as educational guidance, should be considered as part of our job here at the Junior High school. As yet we have not even scratched the surface so to speak of a program that has gained momentous proportions in many progressive communities.

If education is life and not simply preparation for life, the school must incorporate activities leading directly to the attainment of the objectives that make for good citizenship, health, proper use of leisure, worthy home membership, vocational fitness, civic participation, and noble character. The modern junior high school attempts through its differentiated curricula to give students an insight into various fields of knowledge, and through its extra-curricula activities to allow active participation in organized group life.

Such a school and such a program needs constant interpretation to its students. It is of little use to arrange courses of study and elective subjects for boys and girls, if these are casually chosen and aimlessly pursued. It is of slight significance to organize clubs, student government, thrift campaigns, health programs and the like, if the underlying purposes of such activities are never made clear to the participants. Definite periods, home room periods or guidance periods as they are

designated, form a part of the regular time schedule in many schools. Pupils need definite guidance and assistance in adapting themselves to the life, activities and curricula of a new type of school.

Each year brings its changes and we like to think, the improvements that mark progress. This is evidenced by the following:

1. The music is now on a very satisfactory basis. The teaching in this subject has been excellent, and the children are getting instruction in music comparable to any other subject offered by the school.

2. Our program of study has been changed slightly in order to give more time to the work in English, reduce the heavy program in the commercial course, and bring about a better correlation of the work in history and civics.

3. A testing program, although somewhat inadequate, has been established.

4. Seventh year pupils are grouped according to ability. An adaptation of the curriculum to the needs of the pupils has resulted.

5. Noteworthy material improvements were made to our building, including redecoration of third floor, assembly hall, office, and basement and paving of the school yard.

6. Our school paper again won the first prize in its class in the national contest sponsored by the Columbia Scholastic Press Association.

More good reports relating to the work here at the Junior High school have reached us during the past few months than at any other time since I have been connected with the school. Certainly this is the best indication that the spirit and work of the school is excellent.

I greatly appreciate the many suggestions and aids that have come from the Superintendents which have materially improved the work of the school. To the Board of Education and staff of teachers I express my thanks for the help and co-operation that I have received.

Respectfully submitted,

ROBERT F. PERRY,
Principal.

Report of the Supervisor of Music for High and Junior High Schools

---

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I respectfully submit my report.

The Junior High School choruses were rehearsed in large groups up to the close of school, June, 1929.

The graduating class sang chorus selections at their morning commencement exercises, and the Junior High orchestra supplied the instrumental music.

In September the vocal classes were assembled in small classroom groups. This arrangement is the proper one and good results are being obtained.

A definite course of study is being taken up in the Junior I and Junior II divisions. Marked progress in the theory of music is being made.

The Junior High student is the future High School student and we are building his education toward that end. The junior high orchestra is good sized and the instrumental talent is being developed. Miss Kelley directs.

Members of the Junior High are players in the Nashua Boys' Band and secure additional educational advantages in this new field.

Choral music in four parts is studied in the High School, by Freshmen and upper class choruses. Through experience and appreciation the first year chorus is prepared for the study of advanced choral classics which are studied in the ensuing years.

The usual public performances of vocal and instrumental programs were given.

The annual operetta was a marked success. Much out-of-school time is necessarily given to events of this nature. Miss Cornell, dramatic coach, was a prime factor in the success of this event.

The orchestra increases in membership each year and is an asset to the school and community.

Mayor Sullivan honored the orchestra by inviting it to play at his inaugural exercises.

The High School Glee Club sang carols at the Hunt Home at Christmastide. A small group from the orchestra varied the program.

Chorus and orchestra gave their annual May Festival.

The Senior Class contributed vocal selections at their graduation exercises and the orchestra furnished instrumental numbers.

The new organization—Nashua Boys' Band—was formed in October. About thirty boys from the High School are members of the band. Musical ability and experience is the basis for a boy's eligibility in the band. It is interesting to note that the boys from the High School who made the Band were members of the vocal or instrumental classes.

In this day of wide spread understanding and appreciation of music by the general public, due in a large part to the radio, the quality and calibre of school music must be excellent, especially when presented to the public.

Our music department meets this standard and we shall endeavor to keep it up.

Music is taught here in accordance with the principles of education, with its aims, objectives and its correlation with other subjects in the curriculum.

At Concord next May a great Festival will be held by Bands, Orchestras and Choruses. In the evening of this event picked players from all over the state, from the high school orchestras, will join together in one large symphony. This is a wonderful thing for the schools in the state, yes, and for the schools in the smaller cities and towns. Our boys and girls, on their own merit, will be representative players in this event.

I wish to thank those in authority who gave the music department the material to work with.

Very truly,

ELMER WILSON,

Supervisor of Music—
Senior and Junior High Schools.

Report of the Supervisor of Music for the Elementary Grades

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

Herewith I submit the annual report of the Music Department of the Elementary Schools for the year 1929.

In each grade the music progressed as usual and the required amount of work was covered. As is customary, on Memorial Day, a group of boys and girls sang two patriotic selections at Foster Square.

On May twenty-fourth, an operetta, "The Stolen Flower Queen," was presented at the City Auditorium with one hundred and eighty children taking part. The sum of $274.96 was realized and $150.00 was given to the Community Council for the milk fund. The rest was deposited in the bank to be used for music material as needed.

At this time, I would like to speak of the fine work done by the grade teachers in assisting with the choruses while rehearsals were in progress. Also, Miss Florence Hills and her assistants who had the tremendous undertaking of making the costumes. Mr. Goddard and his assistants were very helpful in arranging the stage and lighting effects.

The Harmonica Band is still functioning though in smaller numbers than last year. The orchestra numbers about the same as last year and is doing splendid work. Rehearsals for both these organizations are held once a week.

I wish to thank the Board of Education, the Music Committee, the Superintendents, and the teachers for their support and co-operation.

Respectfully submitted,

MARION A. KING.

Report of the Director of Manual Arts

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith submit the annual report for this department.

The subject of this report will deal with the crowded conditions of this department for the past several years and the urgent need of a building.

Senior High School

Freshman Class—Cabinet Making

For a number of years the shop for this work was located in the basement of Quincy Street School. Three years ago we moved into a small building owned by the Flather Company on Spring Street. While in Quincy Street School, it was my policy to do work for the school department, from the opening of school in September until Christmas recess. After the Christmas recess each student had the opportunity of building a piece of furniture. He could select any piece he wished and if the instructor thought him capable of finishing the piece in workmanlike manner, the student was allowed to build it. At the end of the school year an exhibition was held of the work completed. Much interest was shown by the public and many favorable comments were received.

Since we have occupied the Spring Street Shop, the students have not built furniture but have built equipment for this department and the school system. The only reason that furniture building was eliminated, was the lack of floor space in our present shop. Our freshman classes have averaged for the past several years between seventy and eighty students. If seventy students out of a class of eighty elect to build a piece of furniture requiring from four to ten feet of floor space when completed, it can readily be seen that it will take from seven hundred to one thousand feet of floor space to house this furniture when finished. In our present building our total floor space is 1,012 square feet. The machinery and benches approximately cover this floor area. Therefore, it is absolutely impossible to do any furniture building in our present shop. (The students in these classes have wished to build furniture.)

The past few years we have been trying to have the boys choose the best that was made in the commercial world, and teach them the

beauty of a well designed piece of furniture. Our later period furniture meets our modern requirements of utility, has good taste, harmony of form and beauty, and gives a boy a greater number of operations in construction. Greater skill is required and the boy is taught the finer points of becoming a true artisan.

Finishing Room

When furniture is built, it requires some sort of finish, either stain, varnish, or Duco. In order to finish furniture in a workmanlike manner the room must be free from dust and large enough to house the pieces being finished. In the history of this department, it has never had a separate finishing room. In the past years the furniture has been finished in the auto shop, drawing room, corridors of Quincy Street School, or any other available place. We have been greatly handicapped trying to finish furniture or any other large piece of cabinet work in this department.

Storage Room

A department of this size should have a room to store lumber and other material. For storage purposes, we formerly used the old kindergarten building at the corner at East Pearl and Quincy Streets. This building was taken over by the Veterans of Foreign Wars and we were forced to vacate the same. Since that time we have not had a storage room.

Freshman Class—Mechanical Drawing

Our present drawing room was designed to accommodate twenty-four students, but for the past several years it has been necessary to use portable drawing stands and place the drawing board between the desks to provide sufficient benches for the students. This year we have a class of thirty-seven students taking mechanical drawing the first two periods. Two distinct divisions, freshmen and sophomore classes, have drawing at the same time, and each group covers different subjects in mechanical drawing. Under these conditions the best results cannot be obtained, and it makes the work difficult for the student and instructor.

Sophomore Year—Pattern Making

In former years we had one division in pattern making. Now it is necessary to have two divisions. In order to accommodate one of these divisions we were compelled to use the grade shop in Quincy Street School. This shop is not equipped with machinery of any kind. A pattern making shop requires wood-turning lathes and other wood-working

machinery. Even if funds were available to purchase the necessary machinery, there is not sufficient room to install the same in this shop.

In order to overcome this situation, it is necessary to use the machinery in the Spring Street Shop. The first two periods, there is a freshman class in this building and a sophomore class using the shop with them at the same time. This congested condition is dangerous and handicaps the boys in the proper use of the various machines.

Foundry Work

This shop consists of eight moulding benches that were made by the department. The room isn't large enough and there are not sufficient benches provided for the class. When a boy builds a pattern, he moulds it in the sand and makes a lead casting. These lead castings are re-melted and the lead is used again.

Mechanical Drawing

There are two sophomore divisions in mechanical drawing. One division comes the first two periods, the other division the second two periods.

The division taking mechanical drawing the first two periods is crowded in with the freshman division taking drawing at the same time, creating conditions similar to the one discussed under freshman mechanical drawing. The second division is the only division taking shop work which has adequate shop and drawing facilities.

Junior Year—Auto Mechanics

We have two divisions of juniors taking auto mechanics this year. It is impossible to have sufficient cars in this shop to give each boy a job on some car. It is necessary to use engines mounted on stands. The boys are not so interested in this work, as the models are old and obsolete. It would be impossible to keep these models up-to-date as the new models would have to be purchased every two years or so, and the cost would be prohibitive.

It has been the plan of this course, the past two years, to have the boys bring in their own cars and work on them. We have always been able to have sufficient cars to properly handle the classes but due to the lack of our present floor space and due to the increase in number of students taking the course, this plan could not be carried on.

Junior Year—Mechanical Drawing

The division taking mechanical drawing the last two periods occupy the room with a division of freshmen and a division of seniors. This

gives us a situation of three divisions in one room under one instructor taking drawing at the same time.

The division taking mechanical drawing the second double period is properly taken care of, but their shop work has been previously described.

Senior Year—Machine Shop Practice

We have a large class taking machine shop practice the last two periods each day. It was necessary to divide this class, half taking shop-work and the other mechanical drawing. To properly teach this work each boy should have a machine on which to work. Due to the lack of floor space and the congested conditions of our shop, it is impossible to add sufficient machinery to handle this class.

Mechanical Drawing

This class is in the same room with freshmen and juniors, creating the same situation as previously mentioned.

Junior High

Exploratory Courses

First year junior high consists of bench work in wood. Our facilities are adequate to handle our present classes. Any increase in the number of divisions would create a serious problem.

Second Year

In this year, a course in elementary electricity is offered. Our present floor area and equipment are not sufficient to accommodate all divisions. In the manual arts division we have a class of forty boys in the shop at one time. This same crowded condition exists in the mechanical drawing classes.

Grades

Sixth Grade.

It has always been a serious problem to arrange a program for these classes. A course in elementary bench work is offered in this grade. We have ten divisions, with a total of 225 boys. In the same work, three opportunity classes should be included giving a total of thirteen divisions with a total of 325 boys.

We have always had a shop designated as a grade shop, but it was necessary to use this shop the first two periods this year for sophomore work. In arranging a program for the sixth grades, it was thought

necessary to install a shop in the basement of the Mount Pleasant School. But through various manipulations of the program and continuing the "squeezing process," we were able to give these classes shop work this year.

Spring Street Shop

This shop is nothing more than a fire-trap and is a disgrace to the city of Nashua. I have visited a number of schools in New England and other parts of the country and it has never been my privilege to visit a city that houses its manual arts department in a building as dilapidated as our Spring Street building. In very cold weather it is impossible to heat this building. If the building were large enough to house the various phases of our work, the city would be justified in modernizing the building. Under the present conditions, further expenditures would be unwise.

To crowd large classes in this building with revolving machinery creates dangerous situations and handicaps the boys in the proper manipulation of the various machinery. It retards the progress of the student, and it is impossible to accomplish the best results in this work.

You can readily see the disadvantages in crowding the different classes of students in one drawing room and trying to teach anything from a simple view to a more complex drawing of two bevel gears or teach a division in architectual drawing. It is impossible for a student to concentrate or visualize, and it is a difficult matter to maintain discipline.

If there is any noticeable increase in the number of students this coming year, I fail to see how they can be handled without equipping a shop in some other building. I do not favor various shops in separate buildings.

In the recent survey in one of our large neighboring cities, separate shops were condemned as being too costly and more centralized plants were favored as being more economical.

Our program for manual arts work requires six periods of shop work and four periods of mechanical drawing. Last year I conferred with the State Deputy of Vocational Work on the advisability of giving the students in machine shop practice, eight periods of shop work and two periods of mechanical drawing. He agreed to this plan of instruction and I carried it out last year and found a greater amount of work was covered under this outline.

Under our present crowded conditions it is necessary to divide classes in half in all four years of senior high school. This compels us to send half to drawing and half to shop, thus alternating every other

day. With this procedure, some weeks the students get six periods of shop and four periods of mechanical drawing and the following week, four periods of shop and six periods of mechanical drawing. You will see that the classes the first three years in senior high school are losing two periods of shop every other week, and the seniors are losing six periods of shop every two weeks. Therefore, we are not conforming to the manual arts program.

I have tried to present the crowded conditions as they exist, and to my mind there is only one economical solution to this problem, and that is to erect a building adjacent to the senior and junior high schools, sufficiently large to properly house the various departments for this work for the next generation.

To the Board of Education, Superintendents, and the instructors, and to those who have contributed to the success of this department, I am deeply indebted and their efforts are appreciated.

Respectfully submitted,

JOHN GODDARD,
Director.

Report of the Director of Home Economics

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

The following is the registration in the Home Economics Department in the Nashua Public Schools.

High School	Number of Pupils	Periods per week
Seniors		
Home Organization	27	5
Juniors		
Physiology and Nursing	81	5
Sophomores		
Foods	69	8
Freshmen		
Clothing	109	9
Junior High School		
Clothing	196	3
Foods	158	3
Practical Arts Course	33	3
Sixth Grade	160	2
Opportunity Classes	30	2

The work in this department is being carried on as reported last year, projects being changed enough to hold the interest of the pupils.

The Clothing Classes in the High School are making several children's garments from used woolen dresses that have been given. These garments are to be turned over to the Community Council. The Foods classes sent four dinners to needy families at Thanksgiving, the pupils in the classes donating all the food. At Christmas the Juniors and Seniors sent a box to the children at Pembroke Sanitorium which contained fifty-five used books and one present for each child, all being given by the pupils.

The Home Economics' Club gave a Christmas party to six children who otherwise would have had no Christmas. We hope the girls who

have so willingly helped in the welfare work have learned to see beyond their own activities into the needs of the whole community.

All of the teachers in the department co-operated with the music department in May by making one hundred and fifty costumes for the Operetta directed by Miss Marion King.

The following educational work has been done by the teachers in this department. Miss Hartwell attended summer school at the University completing 108 hours work, Miss Dolan completed 105 hours work at the same school, Miss Blakney completed 60 hours work at Simmons College, Miss Shattuck 90 hours at Boston University, Miss Shepherd 84 hours at Massachusetts Agricultural College, and 30 hours at Boston University, and Miss Shannon 60 hours at Boston University. Miss Ruth Hills spent nine weeks in foreign travel.

The department is very grateful to the building committee for redecorating all of the Home Economic Rooms in the Junior High School and for turning over to them a small room for the use of the overflow clothing classes. All of the rooms are now in excellent condition.

Respectfully submitted,

FLORENCE A. HILLS.

Report of the Director of Drawing

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, N. H.

Dear Sir:

When a course in Household Arts was first offered in the Senior High School, the freshmen who elected it were given instruction in sewing four days each week, and lessons in design one day each week. At first, only enough pupils elected this work to make one division, but the numbers steadily increased until for several years past there have been seven divisions. Among the pupils were a great many who, not having graduated from the Junior High School, were unprepared for the work in design, and consequently, did not enjoy the work, or find it profitable. Therefore, it seemed best to drop the study of design from the freshman class.

A course in art is offered to Sophomores and Juniors, as usual, and twenty-seven have elected it this year. In addition to their regular work in drawing and design, this class has made posters to advertise the high school dances and plays, and the Free Milk Fund drive. They have designed three new covers for the *Tattler* and have decorated some of the costumes, made by the Household Arts classes, for Miss King's operetta. In April several members of this class, with Miss Sanborn's help, presented a one-act play "Through the Picture Frame" at a high school assembly. Living models posed representing famous pictures. A club, which meets every other Thursday afternoon with Miss Sanborn, has been formed to allow some pupils, who could not enter the regular class, an opportunity to do some art work. They gave part of the proceeds, from the sale of some of their work, to the *Tattler* to help pay for the Christmas cover.

The time that was saved by omitting the high school course in design, makes it possible for Miss Sanborn to spend more time in the first four grades. She is teaching design by using lentils, which are small colored wooden tablets. With these, the pupils work out original problems in repetition, progression, alternation, etc.

The time gained by Miss Buckingham has allowed her to double the time she has previously given the Junior high school. It has been pos-

sible to plan special work for special classes. One group of boys has been cutting linoleum blocks and printing Christmas cards from the blocks. A second group, to whom the ordinary problems of a drawing class did not appeal, have been doing some very helpful work in making large manila paper envelopes in which the pupils in all the classes keep their drawings. They have also repainted one hundred and fifty water cups.

The four new covers, which are made every year for the *Broadcaster*, the junior high school paper, are designed by the pupils in an Art Club, which meets the last period every Thursday.

Respectfully submitted,

ELIZABETH BUCKINGHAM.

Report of the School Nurse

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

The following is the annual report of my work as school nurse, in one-half the city schools, for the year 1929.

The usual medical inspection of all pupils and the physical examination of the first, fourth, and eighth grades continued with Dr. Davis examining. A record has been kept of all defects found, and a notice sent to the parents when it was advised by Dr. Davis.

Of the 1502 pupils weighed and measured, 428 were found to be underweight. A notice was sent to the parents of all the pupils 10% or more underweight.

The underweight clinics have continued with Dr. Robert Kerr, Executive Secretary of the New Hampshire Tuberculosis Association, examining. As far as possible the 10% or more underweight pupils have had a complete chest examination by him. All the cases where symptoms of tuberculosis were found have been kept under his observation and treatment.

Milk has been provided at the morning recess. Through the efforts of the Community Council money was raised to provide free milk for those who could not afford to pay for it.

There have been twenty eye clinics held during the year and 874 children have been examined. Of these, 305 had defective vision and 265 notices were sent to the parents. About 50% of these defects were corrected. There were 40 that could not be helped.

Three toxin-antitoxin clinics were held, 170 children completing the three treatments.

Dr. Davis vaccinated 76 pupils in the school buildings. Later in the year I was asked to examine all of the pupils to determine the number of unvaccinated pupils in school. In the schools given me to examine there were 1095 pupils. Of these, 1017 had scars of successful vaccination, 54 had been unsuccessfully vaccinated, one or more times (many of

these were first grade children) six were excused because of being physically unfit, three were unvaccinated, and thirteen were non-membered because of sickness so I did not get their record, and there was a question about two.

From February 4 to April 19 two hours each morning were given to High School girls taking the Red Cross course in Home Hygiene and care of the sick. Fifty-four girls took the course and forty-three received their certificates from the National Headquarters of the American Red Cross in Washington, D. C.

Where it has been possible each school has been visited once during the week.

Inspection for cleanliness, parasitic and contagious diseases have been made as often as it has been possible to do so.

I wish to express my appreciation to all who have co-operated with me to help carry on this work.

Respectfully,

ANNIE B. PETERSON, R. N.

Report of the School Nurse

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

The medical Inspection of the following schools was done by Dr. R. J. Joyce with my assistance: Lake Street, James B. Crowley, Mulberry Street, Quincy Street, Ash Street, Palm Street, High Street Kindergarten, Suburban Schools known as Gilboa and Silver Springs also one-half of High and Junior High.

Weighing and measuring of pupils was conducted in the usual manner. Special attention was given to the frail and underweight children. Free milk which was provided through the efforts of the Community Council was very helpful in reducing the number of such cases.

After examination by the physician, parents were notified of defects found. Visits were made to the homes, suggestions made were accepted. Parents seemed to appreciate and were very willing to co-operate in having corrections made.

Three clinics were held at which suspicious, poorly nourished and contact cases were examined by Dr. Robert B. Kerr of the New Hampshire Tuberculosis Association.

Necessary vaccinations were done in all schools. Toxin-antitoxin for prevention of diptheria was given under the direction of the Board of Health to children with permission of parents or guardians.

The School Dental Clinic was held twice weekly. Dr. E. T. White and Dr. D. J. Hagerty officiating. This clinic is for the needy children particularly. During the year all the schools up to the Junior High were covered. The total number of children treated was 348. Work accomplished: cleanings, 348; fillings, 1094; extractions, 564.

I most heartily appreciate the friendly co-operation of the teachers, the special work in making corrections by Dr. Deering Smith and Dr. R. J. Joyce at the Memorial Hospital which was made possible by the generosity of this institution, also the assistance given by other organizations and friends.

Respectfully submitted,

KATHLEEN HAY.

Report of the Director of Evening Schools

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith submit the annual report of the Evening School for the year 1929-30.

The evening school is organized in three units, (1) Americanization and Citizenship classes, (2) Sewing, (3) Commercial subjects.

The classification of the school is as follows:

1. Illiterate Minors. These are persons between the ages of 16 and 21 who cannot read or speak English understandingly, and who are required by law to attend Evening School.

2. Illiterate Adults. Persons 21 years of age or over who cannot read or speak English understandingly, but who are not compelled to attend Evening School.

3. Literate Persons. These are 16 years or above who do not belong to either of the two classes.

Different Nationalities (Americanization Class)

French	80
Greek	10
Lithuanian	11
Polish	3
Italian	1
Jewish	1
Armenian	2
American	1

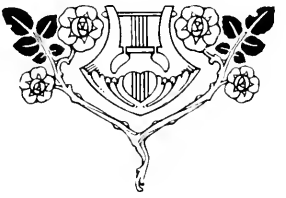
NASHUA HIGH SCHOOL

Class of 1929



AUDITORIUM

Friday Evening, June 21st

at 8 o'lcock

UPPER QUARTER

1. Robert Hugh Prew, Valedictorian
2. William Stabler Law
3. Phyllis Wrightson Peacock
4. Daniel Charles Degasis
5. George French Theriault
6. Neil Frederick Putnam
7. Elizabeth Parks
8. Elizabeth Young
9. Janet Ellen Tinker
10. Edward Otis Brown
11. Wesley Eaton Haynes
12. Dorothy Sylvia Kessler
13. Adam Edward Dogan
14. Marjorie Imelda Smith
15. Stephen Leigh Gilbody
16. Cora Olive LaMontagne
17. Raymond Frank Roy
18. Lucy Madeline Lucien
19. Ruth Marion Whittemore
20. Paul Henry Rimbach
21. Winfred Victor Mansfield
22. Hannah Fletcher
23. Elaine Mary Pederzani
24. Thelma Lucille Willette
25. Mildred Ethel Shunaman
26. Anne Alberta Oulton
27. Robert Frederick Griffith
28. Agnes Lucille Buxton
29. Mary Ruth Sklat
30. James William Chesnulevich
31. Dorothy Margaret Fosdick
32. Leona Ruth Cohen
33. Pauline Llewellyn Fifield
34. Wilfred Pelletier
35. Lillian Rebecca Fletcher
36. Robert Henry Downey
37. Julia Marion Kazloskas
38. Edward John Vinnicombe, Junior

JOHN R. SPRING,
Secretary.

Report of City Libraian

The following report of the Nashua Public Library for the year ending December 31, 1929, the sixty-second year of its existence, is herewith submitted.

The approximate number of volumes in the library, Dec. 31, 1928, was 42,869. During 1929, 1,983 volumes were added by purchase, 86 by gift and 22 by binding periodicals. 517 were withdrawn, making a total gain of 1,474, or 44,343 volumes on the shelves Dec. 31, 1929.

The library was open 303 days. Owing to the extra expense in heating the building for the few persons using the Reading Rooms on Sunday afternoons, the Trustees voted to discontinue this service for the present.

The total circulation of books for home use in all departments was 174,951, a gain of 4,066 over 1928. 5,334 books and magazines were given out for study in the Reading Room, which added to the home circulation makes a grand total of 180,285. The average circulation per day was 577 and the largest month, November, with a total of 28,111. The largest day in the adult department was 904 and the smallest 44. The average circulation in the juvenile department was 172. The largest day was 542 and the smallest 27. In this department there was a loss of 972 volumes in circulation over 1928, largely due to the unusual amount of sickness, especially contagious diseases among the children.

Crown Hill held its circulation of 15,496 and added to it 63 volumes in 1929, totaling 15,559. The average circulation per day was 51. The largest day was 118 and the smallest 10. The library is open only 16 hours per week and under present conditions a circulation of 15,000 volumes per year is a very fair showing. The room is too small to hold more shelving and necessitates the exchange of books to and from the main library often. The transportation is something of a problem, getting books as well as supplies back and forth without seriously impairing our funds. If nothing can be done this year let us keep it in mind for the near future, when a definite stand will be made for expansion.

Our foreign circulation shows a loss of 670 over 1928, much to our regret and means only one thing, lack of new titles. Next year a great effort will be made to increase the supply as we cannot expect to hold readers who have been through the list of old titles several times. Many foreign publications have to be imported taking several weeks after they are ordered and then they are in no condition to circulate until they are rebound causing another delay of a month or six weeks.

It is a satisfaction to note the gain in the non-fiction circulation. 47,783 volumes were circulated in all departments, a gain of 4,701 over 1928. Never has there been more interesting, and worth while titles in all types of non-fiction. The lack of good novels during the past year has lead the reading public to more serious titles. The fictionized biography that has been published so rapidly is responsible, in a large measure, for the increased interest.

This year a tabulated account has been kept of the circulation of the different classes of non-fiction in the adult department. This is a guide and a great help in the selection of books for purchase. Literature heads the list with 4,071 volumes circulated, travel and history next with 3,579 volumes, biography 3,415, periodicals 3,152, useful arts 2,102, fine arts 1,827, social sciences 1,265, philosophy 1,051, religion 708, philology 202. Our picture circulation was 756 but it should have been much larger. Periodicals stand forth which shows the worth of our fine assortment of titles and hope that we shall be able to add to this growth each year. Other statistics follow this report.

The reference work increases each year and where one attendant was sufficient to take charge of the desk two years ago, two are necessary every afternoon and evening to cover the work.

This year has been interrupted by change of assistants and sickness. Routine work cannot run as smoothly under these circumstances. Miss Madeleine Engelhardt resigned the first of March and was succeeded by Miss Doris Bates of Essex Junction, Vermont, a college graduate, who remained two months. We were fortunate in obtaining Miss Rachel Sanborn of Manchester, N. H., a graduate of New Hampshire University, who had had a year's experience with the New Hampshire Library Commission. She has proved to be pleasing and reliable help.

Miss Margaret Howison left in July for a vacation and leave of absence but was unable to return. Miss Elizabeth Spring attended the summer session of the Columbia University Library School and became so interested in the work that she decided to enter Pratt Institute the latter part of September. This was a serious handicap as she was a very faithful and efficient assistant. At this time Miss Mildred Peterson of Nashua, who graduated from Wheaton College in June, was willing to assist us for the remainder of the year at a small salary. Previously, she

had gained valuable experience in the library, assisting during the summer vacation periods.

This year Miss Marion Manning, head of the Children's department, conducted a wild flower contest during the summer months instead of the usual vacation reading club, which proved most instructive and interesting with 51 boys and girls enrolled. Miss Florence Rogers had 327 different specimens to her credit and won the first prize. Two others had over 200, while four boys brought in over 100 specimens each. During Book Week in November, on three evenings, an illustrated lecture on wild flowers was given in the children's room and was greatly enjoyed. The lecture and beautifully colored slides were loaned by the New England Society for the Preservation of Wild Flowers.

Great interest was shown by the children in the new books which were on display in the staff room during Book Week. This room was made most attractive with posters and flowers. An attendant was present during library hours to assist the young people as well as adults in finding titles of interest. The books this year were most attractive with many splendid illustrations by prominent artists in black and white and colors. Much progress has been made in bookmaking for children during the past few years. Fortunate, indeed, are the boys and girls of today who have such a mine of information in attractive form which is theirs merely for the asking.

The exhibition of paintings have been continued this year through the interest and help of Mr. Leonard F. Burbank. Since November 1927, 26 different showings have been held, representing many more than that number of artists. Notices of these exhibitions have been printed in the Boston Transcript, Boston Herald, Globe and Post and in this way the library has received publicity all over New England. The purchase of a glass case for the Reading Room has enabled us to have interesting exhibits each month of old china, glass, needle work, etc.

The redecoration of the walls in the Reading Room, Newspaper Room, Trustees' Room and Work Room was accomplished during the summer, and the work was well done by the D. F. Shea Co. at a reasonable rate. The color was changed in all the rooms with the exception of the Reading Room, to a burnt orange which has made a cheerful and a better light, bringing out the richness and beauty of the dark wood work. The cleaning and oiling of the wood work and floors has added greatly to the appearance of the building. Permanent picture rods were placed around the walls of the Reading Room, a much needed improvement in the hanging of pictures for the various exhibitions. Through the kindness and generosity of Mr. William Beasom, these rods were bronzed to match the wood work and in consequence are quite inconspicuous.

The great problem confronting us next year, in fact, has been with us for the last ten years, is more stack room. Many books are moved every few months to get a small amount of needed space and now there is hardly another foot available at the present time. This is indeed a serious situation and must be met. We are increasing our files of the Nashua Telegraphs by four bound volumes a year, but where can we put them? It is a valuable service to the city to have this publication on file for reference. As far as we know, the only other files in the state are kept by the Historical Society in Concord. Books that are used little have been carried to the Tower Room but many of them necessarily lie upon the floor because of insufficient shelving. A hundred dollars would aid materially in this matter.

The walls in the upper stacks are very dingy and need whitening. The lighting fixtures for the Reading and Newspaper Rooms is another matter for consideration during 1930.

The extension telephone to the children's room installed in the spring, has been a great labor saver and is much appreciated by every member of the staff. We cannot begin to express our gratitude to the Trustees for this service made possible.

Grateful acknowledgment is due the Telegraph Publishing Company in giving valuable assistance by publishing book lists and other publicity items, to the Police Department for their co-operation in the recovery of overdue books and to the interested citizens and friends for gifts of books, magazines and newspapers during the year.

The librarian is indebted to her staff for their co-operation and loyalty and to the Trustees for their splendid support and guidance.

Respectively submitted,

CLARA E. SMITH, Librarian.

Respectfully submitted,

CLARA E. SMITH,
Librarian.

Report of the Recreation Commission

To the Honorable Mayor and Board of Aldermen,

Gentlemen:

Your commission has promoted, during the year 1929, the usual activities of skating, playgrounds, swimming, and tennis, and in conjunction with the Chief of Police, Irving F. Goodwin, some sliding on Church Street and at the South End, but it seems difficult to close many of the streets and unless they are closed, automobile traffic makes sliding decidedly unsafe.

SKATING

Two rinks were in operation during the season of 1928-29. One at Artillery Pond, and the other at South Common. The spaces were considerably enlarged over the previous year, and were cared for by one full time man, Mr. Luke Murphy, with such other help as was necessary at the time.

The rinks are used extensively, and even with the doubling of the space, evenings, Saturdays and Sundays, with good weather and good skating, they are actually over-crowded. The supervisors were Francis Rees and Robert Griffith.

During the late fall, the southwestern section of the South Common was leveled, but not entirely completed. When this is finished, the rink will be greatly improved, and the skating area will be considerably enlarged.

The fall was extremely dry and it took an unusual amount of water to put Artillery Pond in condition, and some money should be expended in leveling that portion which is to be used for skating purposes for the same reason as at the South Common, namely, that it will take much less water and a good skating surface will be more quickly made. This is a matter for thought, as to the best way to accomplish it and whether the Board of Public Works, the Park Commission, or the Recreation Commission should take it in hand.

SWIMMING

The municipal swimming pool was well attended, but on account of the extended drought causing low water, the older bathers were not quite so much in evidence as heretofore. It has been desirable for some years to have the pool chlorinated, not entirely on account of the impurities in the water, but on account of the body impurities of several hundred bathers at one time, so that your commission felt that it was impossible to postpone the matter longer, and installed an up-to-date chlorinator, which is satisfactory to the State and Local Boards of Health.

On account of the drought it was necessary to hold the water back so there would be enough water in the pool for even the small bathers, and therefore somewhat greater expense was incurred on this account. More dredging is greatly needed at the pool.

The land adjoining the pool was well trimmed up and tables and settees placed there, making a very agreeable picnic ground of what has heretofore been worse than useless.

The road leading down to the swimming pool which has been very badly washed out was rebuilt this year, the work being done by the Board of Public Works.

As heretofore, the pool was managed by Superintendent William J. O'Neil in his usual efficient and successful manner. Mr. O'Neil's report is inclosed herewith.

PLAYGROUNDS

The playgrounds opened the first week in July and continued for an eight week period. They were well attended, and were evidently much appreciated by the children and their parents.

The report of our efficient Superintendent Ray Pendleton is herewith included.

TENNIS

The three municipal tennis courts were used to capacity during the entire season, with so many calls for more capacity in the line of tennis, that one new court to correspond with the one already in use at the North Common was completed and will be ready for use next season.

The leveling and grading has been done for two courts at Crown Hill. Your commission confidently expects to have these in use in the early part of next season. As for public courts, tarvia seems to be very desirable, although it may have its objections with the expert tennis players. The great advantages of tarvia courts are that they are usable

almost immediately after it stops raining, and require almost no care to keep them in order. The first painting of the lines on the courts at South Common have run through the remainder of the first season and all of 1929 without being renewed in any particular. And, of course, there is no expense of smoothing or rolling. However, if one were playing two or three hours at a time, which is usually impossible on a public court, the tarvia court is undoubtedly harder on the feet, and wears out the shoes and balls faster than a well kept clay court.

Three lines of bleacher seats were erected at the south end of the South Common Tennis Courts.

FINANCIAL STATEMENT

The balance of something over $1,000.00 which your commission seemed to have on December 31, 1929, is somewhat misleading, as the books were closed a few days earlier than anticipated and there were bills which failed to get in, skating rink pay-rolls, and bills for grading Crown Hill and South Common, as well as credits coming from swimming pool and concessions and tennis. So that the Financial Statement so far as your commission's accounts are concerned had an actual balance of about two hundred dollars.

Respectfully submitted,

C. H. BABBITT, Chairman.
ARCHIBALD F. CHENEY, Secretary.
HELEN B. UNDERHILL,
OSCAR M. FLATHER,
PETER DESAUTELS.

Report of the Supervisor of Playgrounds

To the Recreation Commission:

Six playgrounds opened their season the first week in July and continued for an eight week period.

Several new workers were added to the staff and with the co-operation of the experienced ones, a well rounded program was on for the season. This included tournaments and leagues for the boys in senior and junior baseball, horseshoes and pushmobiles. For the girls, volley ball and bean bags. These comprised the interplayground activities. Besides these badge tests for both boys and girls, doll carriage parade for the girls, lantern parade, boys and girls picnics, dramatics, and music.

Handcraft activities were conducted as usual by Mrs. Foley. This proved as usual to be one of the most popular features.

No final celebration was held on the playgrounds but a lantern parade was held instead. Over 600 boys and girls participated in the event. The Veterans of Foreign Wars donated their Drum and Fife Corp to furnish music and to lead the parade.

This event proved to be a popular one and was well received by a large and enthusiastic crowd.

All playground events were judged on a point scoring basis and the winner presented with a playground championship banner. This was won by the O'Donnell playground. As a reward the Tremont Theatre management invited the members of this playground as its guests at a Matinee performance.

The attendance on the different grounds was very good. Based on a person-period basis the attendance at each ground was as follows:

North Common	5,105
South Common	14,027
Crown Hill	6,601
O'Donnell	6,572
Blossom Street	5,009
Nashua Mills	10,135
Total	47,449

Respectfully submitted,

RAY PENDLETON,

Supervisor of Playground.

Report of the Supervisor of Swimming Pool

To the Recreation Commission:

The swimming pool was opened the second of June and closed the week after Labor Day. Various and important improvements were made such as a new chlorinator, grove cleaned up and benches installed, and road leading into the grounds repaired.

The drought which lasted all summer resulted in very low water, so that the attendance by the larger boys and girls was less than in previous years. More dredging is greatly needed.

Water sports were held late in August at the pool and proved to be an event which was well attended and greatly appreciated.

Attendance, figured on a person-period basis was as follows:

June, ten days	586
July	10,186
August	3,534
September, 3 days	585
Total	15,991

Respectfully submitted,

WILLIAM J. O'NEIL,
Supervisor of Swimming Pool.

Report of the Park Commissioners

To His Honor the Mayor and Board of Aldermen:

The Park Commission submit their Annual Report for the year ending December 31st, 1929.

GREELEY PARK

This beautiful place is now showing the results of the careful planning of the former Commissioners and is now being carried on in accordance with plans drawn and will in time become the most attractive place in this section, where thousands of our people, during the hot summer months, are weekly visitors and hundreds of automobilists stop here to enjoy the comforts that the Park affords.

The drive on the north side, west from Concord St. to the main drive south from Concord Street to Manchester Street is now completed, thanks to the donors of the cinders, and cost only for the labor. Next Fall we shall start in developing the east side of Concord Street by continuing the drives opposite those on the west side, so that one can walk or drive as far as the B. & M. R. R. tracks, in curved and beautiful drives as mapped out on our chart.

During the past year our men, during the quiet season, built a Cement Garage, with room enough overhead for storage purposes and we are in hopes that the city water will be installed this summer.

The Lawn has been extended on Concord St., north of the Rest House and gives a broader and better view into the Park. Other improvements will be made from our appropriation as may be necessary.

NORTH COMMON

The grounds are kept in the pink of condition and the baseball field is the best in New England. We need two more sets of bleachers to accommodate the great numbers that attend games.

The North End of Artillery Pond Basin will be leveled off this summer and loam taken from the southern end will be spread over this so that by next Fall the High School can use this for their games and will be more to their liking.

SOUTH COMMON

This wonderful piece of land has been changed from a dump to a beautiful playground, surrounded with a new fence and a double row of trees and more will be planted later and we are in hopes that the neighbors will do their part in keeping out the rougher elements as they seem bent on destroying everything in sight. Later on a special appropriation will be asked for two cement walks from Otterson St. through to the S. W. on Lake Street and from Chestnut Street through to the S. E. on Lake Street with an attractive light in the center of the Common.

The good people of our city should discourage the holding of carnivals and bonfires as the damage caused by such are irreparable.

OTHER PARKS AND COMMONS

These several places are kept mowed and several of our local Florists, with Civic Pride, have beautified the Meeting House Park, given by Mr. Blake, The Esplanade by Mr. George Buxton, and Stark Square by Mr. Frank Bailey. Mrs. Fletcher has for years paid for the beautiful flower beds at Greeley Park.

Two new Cement Seats will occupy a place on Meeting House Park and we shall, as far as possible, improve the general appearance of the place.

The Park Commissioners would suggest that the monument at Deschenes Oval would rest on a base about ten inches above ground.

MOTH WORK

We find fewer Brown Tails this year but the Gypsy Moths are in greater numbers and are destroying trees in the outskirts. These Moths are brought in by the thousand by automobiles and we ask our property owners to help us to rid our city of these pests.

Respectfully,

R. W. BUNDY, Chairman.
F. X. TARDIFF,
F. J. FINNING, Clerk.

Report of the Trustees of Edgewood Cemetery

To the Honorable Mayor and Board of Aldermen:

The Trustees of Edgewood Cemetery present their 36th annual report, for the calendar year 1929, as follows:

Our grounds and buildings have been kept in proper condition, having required little unusual upkeep or extension. The new Anderson Chapel has been completed and was dedicated on May 26, 1929, with appropriate ceremonies. Our Cemetery and our City are under a debt of gratitude to the donor, Mrs. Ella F. Anderson, for this beautiful building.

The financial condition of the cemetery on December 31, 1929, is shown as follows:

TRUST FUNDS FOR PERPETUAL CARE OF LOTS

	$10,409.30

For the Trustees, respectfully submitted,

JOSEPH L. CLOUGH,
Secretary.

Nashua, N. H., January, 1930.

Report of the Trustees of Woodlawn Cemetery

To His Honor the Mayor and Board of Aldermen,

Gentlemen:

The Board of Trustees of Woodlawn Cemetery submit the following as their Annual Report for the year ending December 31, 1929.

GROUNDS AND BUILDINGS

The grounds have received the best of care and are in a fine condition. Through the generosity, and an extra appropriation of $6,000.00 by the Board of Aldermen, and the sum of $1,400.00 from the Walks and Drives Fund, we were enabled to erect a six-foot Iron Fence the entire length of the Hollis Street side of the Cemetery, a distance of 2,185 lineal feet.

Another long felt want has been supplied in the purchase of a Meyer Auto Snow Plow, of the Empire Plow Company of Cleveland, Ohio, which can be attached to our half-ton truck to clear the snow from the driveways as needed.

INTERMENTS DURING THE YEAR 1929

Residents, Adults	49
Residents, Children	13

Resolutions and Ordinances

RESOLUTION

AUTHORIZING THE FINANCE COMMITTEE TO BORROW MONEY IN ANTICIPATION OF TAXES

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

Resolved, By the Board of Aldermen of the City of Nashua:

That the Finance Committee be and they hereby are authorized and directed to borrow, from time to time during the current municipal year, beginning January 1, 1929, a sum or sums not exceeding One Million ($1,000,000.) Dollars for the purpose of meeting the current expenses of the City, and the Mayor and Treasurer are hereby authorized to execute and issue a negotiable note or notes of the City of Nashua therefor.

Every such note shall become due and payable within one (1) year from the date of the loan for which it is issued is incurred, but no such note shall be payable on demand, or shall be valid unless authenticated by the certificate of the First National Bank of Boston.

All debts incurred under authority of this vote shall be paid from the taxes of said current municipal year.

Passed Jan. 1, 1929.
Approved Jan. 5, 1929.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

ADOPTING RULES AND FIXING THE TIME FOR HOLDING REGULAR MEETINGS

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the rules of the Board of Aldermen for 1928 be and the same are hereby adopted for 1929, and that the time for holding regular meetings be on the second and fourth Tuesday of each month at eight (8) o'clock in the afternoon.

Passed Jan. 1, 1929.
Approved Jan. 5, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

AN ORDINANCE

Amending Chapter 31 of the Revised Ordinances Entitled "USE OF VEHICLES IN CITY STREETS"

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

Amend Chapter 31 by inserting after Section 14 which shall be designated as Sub-Division III the following:

III—Beech Street—Beech Street is designated as a one-way street and all parking thereon is prohibited. All vehicles operating along Beech Street shall enter from West Hollis St. and shall travel in a Southerly direction.

Passed Jan. 8, 1929.
Approved Jan. 11, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

AN ORDINANCE

IN AMENDMENT OF AN ORDINANCE PASSED OCTOBER 9, 1928, ENTITLED, "REGULATING THE SLAUGHTERING, INSPECTION AND SALE OF MEATS AND MEAT PRODUCTS"

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

Amend Section 4 of Division 2, Inspection of Animals and Meat, by striking out the words "a state department, or a municipal department" and insert at the end of said Section the following: "or bearing the mark of any State Department or Municipal Department stamp, approved by the Board of Health of Nashua," so that the amended Section will read as follows:

No beef, pork, veal, mutton, or lamb shall be sold or offered for sale for food purposes unless the animal from which the meat was taken was examined both before and after slaughter by a meat inspector appointed by and in the employ of the United States Government, and passed as fit for food, and stamped with a proper identification mark or marks, according to the system adopted by the United States Bureau of Animal Industry, or bearing the mark of any State Department or Municipal Department stamp, approved by the Board of Health of Nashua.

Passed Feb. 12, 1929.
Approved Feb. 13, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

AN ORDINANCE

AMENDING CHAPTER 32, SECTION 17 OF CITY ORDINANCES, RELATING TO SALARY OF CHIEF ENGINEER OF THE FIRE DEPARTMENT

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

That Chapter 32 of the City Ordinances, Section 17, be and hereby is amended by striking out the figures 3,000 opposite the name "Chief Engineer" and inserting in place thereof the figures 3,500, so that the amended article will read:

Chief Engineer $3,500

Passed Feb. 26, 1929.
Approved March 2, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

CREATING A COMMISSION FOR THE ZONING OF THE CITY OF NASHUA

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Mayor be and hereby is authorized to appoint, subject to the approval of the Board of Aldermen, a Zoning Commission in accordance with the provisions of Section 53, Chapter 42 of the Public Laws of New Hampshire.

Such Zoning Commission shall consist of one member from each ward in said Nashua and six members at large.

There shall further be an Advisory Zoning Board consisting of the following members, ex-officio: The Mayor, Chief of Police, Chief of the Fire Department, City Solicitor, City Engineer, Superintendent of Schools, Chairman of the Board of Health and the Chairmen of the Park Commission. Said Advisory Board shall, at all times, hold itself and the individual members thereof shall hold themselves in readiness to assist and advise the Zoning Commission upon matters coming specifically within the province of their respective departments. Members of both the Zoning Commission and Advisory Zoning Board shall serve without compensation.

For purposes incident to the proper performance of its work, the said Zoning Commission is hereby authorized to expend a sum, not to exceed fifteen hundred ($1500) dollars; said sum shall be payable out of City funds and shall be subject to the approval of the Finance Committee of the Board of Aldermen.

Passed Feb. 26, 1929.
Approved March 2, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

CREATING THE CITY HALL COMMITTEE, FOR THE ERECTION OF A NEW CITY HALL

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

That a joint committee consisting of the Mayor, the Board of Aldermen and the Advisory Committee on City Hall, heretofore appointed and confirmed, be and hereby are constituted as the City Hall Committee. All members thereof shall serve without compensation and any vacancy in the Advisory Committee on City Hall shall be filled by the Mayor, subject to confirmation by the Board of Aldermen.

2. Said City Hall Committee is hereby authorized to select a proper location for the erection of a new City Hall, pursuant to the recommendation of the Advisory Committee on City Hall, filed with the Board of Aldermen on June 12th, 1928, and for the proper performance of said duty, shall secure prices on available locations, a description and abstract of title of each, and if reasonably necessary, may recommend the taking by eminent domain of any suitable location and the price to be offered therefor. If a location other than the site of the present City Hall and Municipal Building so-called shall be selected, the said Committee shall obtain bids for the sale of said City Hall and Municipal Building and the land upon which said buildings are located, in such parcels as may be deemed advisable by it.

3. The said Committee is hereby authorized to employ a competent architect and such other expert assistance as shall be reasonably necessary for the proper performance of its duties. It shall obtain plans and specifications for the proposed new building.

4. Said Committee is hereby authorized to expend such sums as shall be reasonably necessary, said sums to be chargeable to the account of the new City Hall. Said Committee or its architect shall consult with the heads of departments which are to be located in the new building and the heads of such departments shall give all necessary information and advice for the location, arrangement and space necessary for their respective departments.

5. The said Committee shall report its findings in detail, with its recommendations thereon, with all papers, plans, specifications, prices, bids and all other information, to the Board of Aldermen for its final approval.

Passed Mar. 12, 1929.
Approved Mar. 18, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

GRANTING A PENSION TO ELIZABETH ROCHE

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-nine

Attest: ARTHUR L. CYR,
City Clerk.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-nine

AN ORDINANCE

RELATING TO PLUMBING AND DRAINAGE REGULATIONS

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

That in accordance with the provisions of Chapter 153 of the Public Laws of New Hampshire, the following Plumbing and Drainage Regulations are hereby approved and adopted:

SECTION 1. Every person who shall carry on the business or do any work of plumbing in the City of Nashua shall register his name and place of business in the office of the Board for the Examination of Plumbers; and a notice of any change in the place of business of a registered plumber shall be immediately given to said Board. This section shall not apply to employees while working for a registered plumber.

Section 2. The plumbing of every building shall be separately and independently connected with the public sewer where such sewer is within one hundred feet of said building, unless permission is given by the Board to connect in some other way. When there is no such public sewer the plumbing shall be connected with a Septic tank or dry well of a construction and capacity approved by said Board.

Section 3. The main drain of any building from a point ten feet outside the interior face of the foundation wall to a point inside the cellar shall be of cast iron of a sufficient size, not less than four inches in diameter, and of a weight not less than hereinafter specified. Said main drain shall be carried open up through the roof to a sufficient height, not less than two feet above said roof, and not less than five feet above the top of any window within fifteen feet. Should a water-closet be connected with said main drain, the latter shall not be less than four inches throughout its entire length. If no water-closet is to be connected, the main drain may be reduced inside the cellar wall to not less than two inches in diameter; provided, however, that said main drain is again increased to four inches in diameter before passing through the roof.

Section 4. Whenever any drain or ventilation pipe shall be run outside of a building before going through the roof, all such exposed pipe shall not be less than four inches in diameter. If a second line of pipe is connected with the main drain, said main drain must be increased at the point of such connection to not less than four inches in diameter and continue to the sewer or point of disposal undiminished. All pipes which pass through the roof of any building shall be connected to the roof flange with a tight joint. Changes in direction shall be made with curved pipes, small offsets with eighth bends, and all connections with Y branches. The main drain and all other pipes shall, so far as is practicable, be laid above the floor of the basement or cellar and be exposed to sight. They shall be properly secured by irons to walls or floor timbers and shall not be exposed to pressure or strain where they pass through or under any wall.

Section 5. That part of the drain which is outside of the building and more than ten feet from the foundation wall shall be of iron pipe of the same description as that within the building, with lead joints, or vitrified salt glazed earthen pipe with cement joints. It shall be laid, where practicable, in a straight line, with a uniform fall not less than one fourth inch per foot. No house drain or private sewer shall pass under another house or within four feet of the wall thereof except by written permission of the Board. Every drain shall have a clean-out at base of stack and at point where main drain leaves building, when said drain is not in a straight line from base of said stack, and a clean-outs of all kinds shall be provided with screw-caps or some other device satisfactory to the Board.

SECTION 6. In cases where these regulations have been fully complied with, the introduction of a running trap in the main drain shall be required. Such trap shall be of the same size as the drain, and shall be placed with an accessible clean-out at or near the place where the pipe leaves the building.

SECTION 7. Rain water leaders shall never be used as soil, waste, or vent pipes, but shall be carried to a point ten feet outside the inside surface of the foundation wall before being connected with the main drain, and the main drain shall be enlarged at the point where the rain water leader enters it.

SECTION 8. Soil pipes shall be of cast iron and not less than four inches in diameter. Other waste lines shall be of lead or iron or not less than the following sizes: For wash-basins, bath-tubs, laundry tubs, urinals and kitchen sinks, not less than one and one fourth inches; for slop hoppers, three inches.

SECTION 9. Every building used as a dwelling in which plumbing arrangements are to be placed shall be supplied with a water-closet for every fifteen persons. Each room or stall in which a closet is set shall be well lighted and ventilated, with a window communicating directly with the outer air. No water-closet shall be set in a cellar or basement except by permission of the Board. Every water-closet or line of water-closets on the same floor shall be constantly supplied with water from a tank or cistern, and each closet shall have a flushing pipe of not less than one and one-fourth inches in diameter. No pan-closet shall be set. No direct supply closet shall be set unless located outside the building proper in places where tanks cannot be made secure from frosts, and no such location of closets shall be allowed unless the Board has become satisfied that it is impracticable to put closets in the building proper. When direct supply closets are allowed they shall receive their water supply directly from the main through fixtures, service pipes, and connections approved by the Board.

In cases when the regulations in regard to water-closets have been fully complied with, the construction and maintenance of urinals is optional with the owner of the property, excepting that in any special case, when it shall appear necessary, either in old or new buildings, the Board may require such a urinal or urinals to be constructed and maintained.

When a urinal or urinals are provided all regulations that shall be in force in regard to water-closets shall apply to such urinal or urinals, except as to limit of the number of the persons using said fixtures, and also that said fixtures may be supplied with a flushing pipe connected directly with the water main through fixtures, service pipes, and connections approved by the said Board.

Section 10. The waste pipe of each and every sink, basin, water-closet, and of each set of trays or other fixtures except bathtubs, shall be furnished with a separate trap which shall be placed above the floor of the room in which the fixture stands. The waste pipe of each and all bathtubs shall be furnished with a round trap or some other trap equally acceptable to the said Board which shall be placed as near the fixture it serves as is practicable.

Section 11. Traps must be protected from syphonage and their wastes ventilated by special lines of iron vent pipe not less than two inches in diameter; except round traps four inches or more in diameter, serving bath-tub and wash-trays, and when the delivery pipe from a trap to a line of pipe running through the roof is ten feet or less in length. Measure to be made from the center of the trap to the hub of the Y on such pipe running through the roof. The short lines from these branches to each trap, if exposed to view, may be of lead. They shall be two inches in diameter for three or four inch traps, and of the same size as the waste pipe for smaller traps. Vent pipes for water-closet traps, when more than thirty feet in length, shall be three inches in diameter. All vent pipes must extend at least three feet above the highest fixture, and in no case shall they terminate in a chimney flue. They shall be run as direct as possible, and forty five degree ells or eighth bends shall be used for small offsets. If less than four inches in diameter, they shall be enlarged to that size before passing through the roof.

Section 12. Local vents of water-closets or urinals, when provided, must not be connected with any vent pipe, but be carried into a heated flue provided for the purpose, or into the kitchen chimney, or be disposed of in such other manner as the Board may approve. Said Board may require a local vent in any special case.

Section 13. All cast iron pipe through which the discharge of any water-closet passes shall be ordinary pipe, known as Standard and all pipe which is buried in the earth inside of any building, or runs within ten feet of the interior face of a foundation wall of any building, shall be of the description known as extra heavy pipe. All pipe shall be of uniform thickness, free from all defects, and shall have an average weight per linear foot not less than that below specified, viz:—

	Ordinary pipe	Extra heavy
2 inches diameter	3½ pounds	5½ pounds
3 inches diameter	4½ pounds	9½ pounds
4 inches diameter	6½ pounds	13 pounds
5 inches diameter	8 pounds	17 pounds
6 inches diameter	10 pounds	20 pounds
8 inches diameter		33½ pounds
10 inches diameter		45 pounds

SECTION 14. Joints in cast iron pipes shall be packed with oakum, run with molten lead, thoroughly calked and make tight.

Joints in lead pipes shall, when practicable, be of wiped solder. Connections of lead to iron pipes shall be made with brass ferrules calked to the iron and connected to the lead by wiped solder, or with some equivalent devices satisfactory to the Board. All connections of brass to lead shall be of wiped or overcast solder.

Joints in earthern pipe shall be made water tight by means of the best hydraulic mortar, with which the joints shall be thoroughly filled, and care must be taken that all mortar which comes through into the inside of the pipe is wiped out.

SECTION 15. Waste pipes from safes, refrigerators, and overflows of tanks or cisterns shall empty over sinks, tapped gully-holes, or otherwise, as may be approved, but shall not connect with the drainage.

SECTION 16. No steam exhaust, blow-off, or drain pipe shall connect with a sewer, house-drain, or any part of the drainage system of the building. Such pipes shall discharge into a suitable tank or condenser, from which an outlet to the house drain may be provided.

SECTION 17. No saddle hub will be allowed on any plumbing.

SECTION 18. No direct pressure flush valve shall be used in any water-closets unless the main water pipe, from the street main to the water-closet supplied is at least one and one-quarter inches in diameter throughout its whole length.

Passed May 14, 1929.
Approved May 15, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

OMITTING REGULAR MEETINGS

RESOLUTION

IN RELATION TO THE COLLECTION OF POLL TAXES

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the collector of taxes be and hereby is authorized to forward during the month of July, 1929, a notice to each and every poll tax payer of the City of Nashua, notifying each poll tax payer that the poll tax for 1929 must be paid on or before August 1st, 1929, and for all poll taxes not paid by said date to charge costs amounting to 20 cents for said notice, the said notice to consist of the publication of this resolution in the newspapers of this city in three separate issues during the month of July and RESOLVED FURTHER that the collector of taxes be and hereby is authorized to proceed to distrain for all poll taxes not paid by the first day of August, 1929.

Passed June 11, 1929.
Approved June 15, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

RESOLUTION RELATIVE TO CELEBRATION OF 150TH ANNIVERSARY OF THE DEATH OF GEN. PULASKI

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-Nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

Whereas on October 9, 1779, that gallant Polish patriot and soldier, Brigadier General Casimir Pulaski, died leading his troops in a combined assault of French and American forces against the British entrenched position at Savannah. His able service and final self-sacrifice in behalf of American liberty are examples of patriotism which should be always held in grateful memory by all American citizens.

That the Mayor be authorized to appoint a committee of fifteen to arrange for the celebration of the 150th anniversary of Gen. Pulaski, on the 9th day of October next.

Passed June 11, 1929.
Approved June 15, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR TO CONVEY CERTAIN PROPERTY

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

THAT, the mayor be and hereby is authorized to sign a certain Quit-Claim Deed conveying to Omer Rochette of this City a certain building situated on land of said Rochette, and formerly used for school house purposes, in consideration of the payment of one dollar ($1.00).

Passed Aug. 13, 1929.
Approved Aug. 14, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR TO PURCHASE CERTAIN REAL ESTATE FOR THE CITY OF NASHUA

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Mayor, William F. Sullivan, be and hereby is authorized to purchase for and in the name of the City of Nashua, a certain parcel of land, situate in Nashua and bounded and described as follows: "Beginning at a stone bound at the southwest corner of the premises, on the north side of Shattuck Street and at the southeast corner of Alfred W. Heald's land: thence running northerly by said Heald's land one hundred and twenty feet to a stone bound at land of Laton; thence easterly by said Laton's land fifty feet to a stone bound at land of Nelson; thence southerly by said Nelson land one hundred and twenty feet to a stone bound at Shattuck street; thence westerly by the northerly line of Shattuck street fifty feet to the bound first mentioned."

And be it further resolved that the purchase price shall not exceed five hundred and fifty ($550.00) dollars to be charged against the appropriation of the Board of Education.

Passed Aug. 13, 1929.
Approved Aug. 14, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR TO SIGN A CERTAIN LEASE

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

THAT the Mayor be and is hereby authorized to sign, for and in the name of the City of Nashua, a certain lease for the use of the school building owned by the Greek Orthodox Community.

This Resolution shall take effect upon its passage.

Passed Sept. 10, 1929.
Approved Sept. 11, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

AUTHORIZING THE SPECIAL COMMITTEE ON STREET LIGHTING CONTRACT TO SIGN A CONTRACT WITH THE PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE

CITY OF NASHUA

That in accordance with the Provisions of Chapter 226 of the Session Laws of 1923 and Chapter 307, Section 1 of the Session Laws of 1925 a pension of $10.00 per week is hereby granted Leonard May.

This pension is for one year from the date of the passage of this Resolution and is to be paid from the Board of Public Works Appropriation.

Passed Nov. 12, 1929.
Approved Nov. 18, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-nine

AN ORDINANCE

DESIGNATING CERTAIN HIGH-WAYS AS THROUGH WAYS

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

THAT, Chapter 31 of the City Ordinances be amended by striking out Section 17, 18, 19 and 20 thereof, and inserting in place thereof the following:

SECTION 17. Any person convicted of a violation of Section 16 shall be punished by a fine not exceeding ten (10) dollars, or by imprisonment not exceeding thirty (30) days.

SECTION 18. The following streets are hereby designated as through ways, in accordance with the provisions of Chapter 119 of the Session Laws of 1929.

Concord Street from the Northerly intersection of Beasom Street South to the intersection of Main Street.

Main Street at the intersection of Concord Street South to the Southerly intersection of Russell Ave.

Hollis Street from its intersection at Badger Street, East, to its intersection with Bridge Street.

Pearl Street at its intersection at Pine Street, East, to its intersection with Temple Street.

Kinsley Street from Main Street to its Westerly intersection of Sawyer Street.

Manchester Street from Concord Street to its Northerly intersection of Abbott Street.

Amherst Street from Main Street to its intersection with Broad Street.

SECTION 19. OPERATION OF VEHICLES. Every vehicle immediately before entering or crossing throughways, at its point of intersection with another way shall first come to a full stop, except where otherwise directed by a police or traffic officer, or by a lawful traffic regulation sign, device or signal.

SECTION 20. PENALTY. Any person who shall fail to stop before entering a through way, where a stop signal, sign or device has been installed, in pursuance of Chapter 119 of the Laws of 1929, shall be fined not exceeding one hundred (100) dollars for each such offense.

Passed Nov. 26, 1929.
Approved Nov. 29, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-nine

AN ORDINANCE

REGULATING PARKING ON THE NORTH SIDE OF LAKE STREET

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

That, in accordance with the recommendation of a Special Committee on parking regulations, no motor vehicle or horse drawn vehicle shall be stationed and remain for a period exceeding one hour on week days from 6.00 A. M. to 6.00 P. M., on the North Side of Lake Street, between Pine and Vine Streets.

This Ordinance shall take effect upon its passage.

Passed Nov. 26, 1929.
Approved Nov. 29, 1929.
Attest: ARTHUR L. CYR,
City Clerk.

RESOLUTION

FOR THE SALE OF LAND ON BOYLSTON AVENUE BY THE TAX COLLECTOR

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Twenty-nine

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Tax Collector for the City of Nashua, be and hereby is empowered to sell to Earl A. Record for the consideration of Twenty-five Dollars ($25.00) Lots 66 and 68 Sheet 55 Boylston Avenue as shown on the Assessor's maps.

Meaning and intending the lots sold for non-payment of the taxes of the year 1914 on March 20, 1915, and later deeded to the City of Nashua on a Tax Collector's deed on March 22, 1917. Said lots at that time being assessed to Rachel M. Laflamme or owner unknown.

Passed Nov. 26, 1929.
Approved Nov. 28, 1929.
Attest: ARTHUR L. CYR,
City Clerk.
